RE: Increase in California Personal Income Tax (State Tax)

As a result of the recent passage of the State budget the California Personal Income Tax Withholding Schedules (State Income Tax) for 2009 have been updated. We have entered the new State Income Tax Tables for 2009 into our payroll system. You will notice the State Income Tax increase starting with the 4/30/09 payroll. The increase is approximately .25% of your taxable gross than previously deducted.

For additional information about California Income Tax, you may visit the Franchise Tax Board's web site at www.ftb.ca.gov.

You will also see a message in the message area of your pay stub that indicates there has been a change in the Withholding Schedules and your State Income Tax has increased.

If you have any questions, please contact your payroll technician in the payroll department at (831) 786-2350.
