

My Choices

Create a new season. Name it. Describe the climate. Draw a picture.

In your journal, draw the moon each night, for 7 nights in a row. Include the date. Label the type of moon phase. Write about the weather.

Create a picture book for a 1st grader explaining the earth's rotation as it relates to day and night.

Make a visual to explain the water cycle. Write a paragraph to go along with it..

Write a script for a severe weather report that you will present to the class as if you were a weather reporter.

Using a line graph or a bar graph, graph the temperature in Northern Virginia for 7 days.

Check out WashingtonPost.com to find out the coldest place in the United States and the hottest place for 7 days. Calculate the difference in the temperatures for each day.

Create a KWL chart for severe weather. Find a book and search for the answers. Add:
5 things you know
5 things you want to know
5 things you found out

Locate a newspaper article pertaining to severe weather. Write down 5 facts and be prepared to tell the class about your article.
