

**PVUSD GATE Goals:**

3. All students will meet and exceed state academic content standards. The curriculum will be differentiated through acceleration, depth, complexity and novelty.
4. The GATE office will provide annual professional development to district, elementary, intermediate and high school staff regarding the intellectual, social and emotional needs of the gifted.

YOU KNOW YOUR CHILD IS GIFTED WHEN...

He has already asked "Why?" 100 times today... and it's only 8:00 in the morning.

*Giftedness is only a **prediction** of potential; it is not a **guarantee** of success. It is important to help gifted children make the most of their potential. **We must challenge and motivate them. These students do not always "make it on their own."***

VERBAL/LINGUISTIC

"I got a thesaurus for my birthday. I was surprised, amazed, astonished, astounded, awed, dumbfounded, shocked, stupefied, staggered, stunned..."
