***HIGHER EDUCATION IS THE FOCUS OF THE NEXT STUDY SESSION AT
PVUSD***

The College Bound and District Office staff of Pajaro Valley Unified School District is proud to host a study session on the college preparation of PVUSD students for our Board of Trustees. The intent is to gather information and learn from the trends that have been established by students that have gone on to colleges or universities from our high schools.

We will be analyzing the various programs and partnerships that are now available which enhance a student's pursuit of higher education. Another topic for discussion will focus on understanding our current college bound outcomes. We will identify the rate of students attending college bound students as well as the drop out rate. This data will allow us to further understand the needs of our students as they prepare to continue their academic endeavors.

We are inviting anyone that is interested in participating in this study session to join us at the Rolling Hills Middle School Library. We will be having two study sessions on April 10, one will take place from 12 noon to 1:30 pm and the second will be from 5:00 pm to 6:30 pm.
