INDEPENDENT AUDITOR'S REPORT

Governing Board
Pajaro Valley Unified School District
Watsonville, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pajaro Valley Unified School District (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2011-2012*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Pajaro Valley Unified School District, as of June 30, 2012, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2012, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison, and other postemployment information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements. The supplementary information listed in the table of contents, including the Schedule of Expenditures or Federal Awards which is required by the U.S. Office of Management Budget Circular A-133, *Audits of State, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information listed in the table of contents and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management Discussion and Analysis section of the 2011/2012 Annual Financial Audit summarizes the District's financial performance during the 2011-2012 fiscal year ending June 30, 2012. The District's financial systems and reporting adhere to standards and requirements prescribed under the Governmental Accounting Standards Board (GASB), State Board of Education, federal law, and the California Education Code.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Pajaro Valley Unified School District (the District) using the integrated approach as prescribed by GASB Statement Number 34.

- The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. They present major governmental activities in accordance with accrual accounting. These statements include all assets of the District (including capital assets), as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred as prescribed by the statement in regards to inter-fund activity, payables, and receivables.
- The *Fund Financial Statements* include statements for each of the three categories of activities: governmental, proprietary, and fiduciary.
- The *Governmental Activities* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.
- The *Proprietary Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.
- The *Fiduciary Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2012

The Pajaro Valley Unified School District is the primary governmental agency represented in this audit. The District also includes five charter schools established and overseen pursuant to the Education Code. They include Linscott Elementary, Watsonville School of the Arts, Pacific Coast Charter School, Alianza Charter School, and Academic Vocational Charter Institute. Financial information for the charter schools is included in the special revenue, charter school fund of the District. Separately issued financial statements for the charter schools are not prepared.

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Assets and the Statement of Activities

The Statement of Net Assets and the Statement of Activities report information about the District as a whole and its activities. These statements include all assets and liabilities using the accrual basis of accounting. All current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net assets and changes in them. Net assets are the difference between assets and liabilities. These statements are one measure of the District's financial health and position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

Overall, these factors are subject to significant influences from state and federal education funding policies. As a result of current economic conditions, they have undergone dramatic fluctuations over the past five fiscal years. These changes have largely been unforeseen and unprecedented. Projections indicate this condition will continue over the next two fiscal years.

The relationship between revenues and expenses is the District's operating results. Since the Board's responsibility is to provide services to all students, and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the instructional program, academic achievement among students, and the safety and condition of school facilities are important components in the evaluation of District effectiveness.

In the *Statement of Net Assets* and the *Statement of Activities*, we include the District activities as follows:

Governmental activities - All of the District's services are reported in this category. This includes the education of kindergarten through grade twelve students, adult education students, the operation of child development activities, other student services, and the on-going effort to improve and maintain buildings and sites. Property taxes, state education funding, user fees, interest income, federal, state and local grants, as well as general obligation bonds, finance these activities.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by state law and by general obligation bond covenants. In addition, District leadership establishes many other funds to provide appropriate fiscal control and accountability to manage money for particular purposes. Specified funds will also provide legally required reporting demonstrating the District's compliance with state and federal education funding requirements and other legal/statutory guidelines.

Governmental funds - Most of the District's basic services are reported in governmental funds. These focus on how money flows into and out of those funds and the balances left at year-end. Specific funds are reported using an accounting method called *modified accrual accounting*, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance District programs. The differences of results in the governmental fund financial statements compared to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Revenues, Expenses and Changes in Fund Net Assets. The District uses internal service funds to report activities that provide supplies and services for the District's other programs and activities - such as the District's Self-Insurance Fund. The internal service fund is reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for funds held on behalf of others, such as funds for associated student body activities, scholarships, and employee retiree benefits. The District's fiduciary activities are reported in the Statements of Fiduciary Net Assets. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its general operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

THE DISTRICT AS A WHOLE

Net Assets

The District's net assets were \$133.5 million and \$137.1 million for the fiscal years ended June 30, 2012 and 2011, respectively. Of this amount, \$16.0 million and \$14.2 million were unrestricted for fiscal years ending June 30, 2012 and 2011, respectively. Restricted net assets are reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use those net assets for day-to-day operations. Our analysis below focuses on the net assets (Table 1) and change in net assets (Table 2) of the District's governmental activities.

TABLE 1

	Governmental Activities 2012	Governmental Activities 2011
Current and other assets	\$ 89,785,515	\$ 83,559,297
Capital assets	155,271,695	165,552,354
Total Assets	245,057,210	249,111,651
Current liabilities	27,642,308	31,650,645
Long-term debt	83,952,956	80,358,047
Total Liabilities	111,595,264	112,008,692
Net assets		
Invested in capital assets, net of related debt	94,219,122	103,628,491
Restricted	23,196,199	19,263,020
Unrestricted	16,046,625	14,211,448
Total Net Assets	\$ 133,461,946	\$ 137,102,959

The \$16.0 million in unrestricted net assets of governmental activities represents the accumulated results of all past years' operations. It means that if the District had to pay off all of its bills today including all of our non-capital liabilities (compensated absences as an example) we would need \$16.0 million.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2012

Changes in Net Assets

The results of 2011-2012 general operations for the District as a whole are reported in the Statement of Activities. Table 2 takes the information from the Statement and rearranges it slightly so total revenues and expenses for the year.

TABLE 2

	Governmental Activities 2012	Governmental Activities 2011
Revenues		
Program revenues		
Charges for services	\$ 1,002,192	\$ 960,175
Operating grants and contributions	78,624,347	75,120,938
Capital grants and contributions	235	(242,904)
General revenues:		
Federal and state sources	74,167,926	74,473,737
Property taxes	52,189,694	51,125,005
Other general revenues	5,990,370	5,309,580
Total Revenues	211,974,764	206,746,531
Expenses		
Instruction related	166,559,971	165,718,486
Student support services	25,343,361	22,697,696
Administration	2,777,150	5,265,074
Maintenance and operations	17,095,838	15,587,640
Other	3,839,457	4,164,013
Total Expenses	215,615,777	213,432,909
Change in Net Assets	\$ (3,641,013)	\$ (6,686,378)

Governmental Activities

As reported in the Statement of Activities, the cost of all of governmental activities in 2011-2012 was \$215.6 million. However, the amount that District taxpayers ultimately financed for related activities through local taxes was only \$136.0 million. This is because \$79.6 million was paid by those benefiting from District programs or by other governments and organizations who subsidized certain programs with grants and contributions. The District paid for the remaining "public benefit" portion of its governmental activities with \$74.2 million in state and federal funds and with other revenues, such as interest and general entitlements.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

In Table 3, we have presented the net cost of each of the District's largest functions - (total cost less revenues generated by the activities). As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows members of the public to consider the cost of each function in comparison to the benefits they believe are provided by that function.

TABLE 3

	Net Cost of Services 2012	Net Cost of Services 2011
Instruction and instruction related	\$ 107,432,765	\$ 107,452,029
Pupil services	8,896,758	9,065,564
General administration	1,133,026	3,137,554
Maintenance and operations	16,452,803	15,011,895
Other	2,073,651	2,927,658
Totals	\$ 135,989,003	\$ 137,594,700

GENERAL FUND HIGHLIGHTS

As the District ended the 2011-2012 fiscal year, governmental funds reported an ending fund balance of \$58.2 million. The unassigned fund balance was \$34.1 million. This reflected a \$6.3 million increase in the General Fund ending balance as compared to the District's estimated ending balance earlier in the fiscal year. This increase was largely one-time in nature. The District's ongoing funding remained relatively constant throughout the fiscal year. The reasons for the increase include:

- New state deferrals of state education funding
- Lower overall expenditures due to continued "belt tightening" by school sites and programs
- Implementation of less expensive and more efficient operational practices
- ADA/Enrollment Increase in K-12 grades
- Extension of state categorical flexibility
- Decrease in projected transportation expenditures
- SELPA revenue increase due to increased ADA
- Decrease in projected SELPA expenditures
- Legal/utility expenses lower than anticipated
- Use of remaining ARRA/Ed Jobs Fund to backfill specific General Fund positions

Recent national and state economic conditions have created significant challenges to the District's fiscal and programmatic integrity. In 2008-09, the District experienced an approximately 20 percent reduction in ongoing state education funding. This was the result of funding reductions enacted by the state in 2008-09 and 2009-10. This forced the District to implement more than \$18.5 million in program and personnel reductions since 2008-09. The District has not received a cost of living adjustment since 2007-08. The 2011-12 fiscal year marked the fifth straight year the District was forced to operate with reduced funding while operating expenses continued to increase. The District's 2011-12 average student funding was at levels lower than it was in 2006-07.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

The passage of Proposition 30 in November of 2012 is cause for cautious optimism. The District avoided a possible ongoing reduction to state education funding should the initiative have failed. The passage of Proposition 30 did not result in any additional revenue, but it did serve to stabilize education funding overall and keep the District's 2012-13 revenues status quo with the previous fiscal year. Finally, out-year projections indicate that the state's budget picture could improve thereby improving opportunities for additional state education funding in the future.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2012 and 2011, the District had \$155.3 million and \$165.6 million, net of depreciation in a broad range of capital assets including land, buildings, and furniture and equipment. This amount represents a net decrease (including additions, deductions and depreciation) of just under \$10.3 million, or 6.2 percent, from last year.

TABLE 4

	Governmental Activities 2012	Governmental Activities 2011
Land	\$ 17,055,144	\$ 17,055,144
Construction in progress	503,607	3,650,529
Buildings and improvements	261,065,637	257,091,833
Equipment	4,548,819	4,297,666
Accumulated depreciation	(127,901,512)	(116,542,818)
Totals	\$ 155,271,695	\$ 165,552,354

This year's additions to capital assets of \$1.1 million (excluding depreciation) are primarily from the completion of the District's remaining Measure J general obligation bond projects. Measure J was enacted by District voters in 2002. All projects have been completed within the required ten-year timeline and per requirements of the bond language. The District is awaiting final sign off from the state for these remaining projects and will conduct a final performance and financial audit once final approval is received from the state.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

Long-Term Debt

At the end of this year, the District had \$57.5 million in bonds outstanding. The District's long-term debt is summarized below.

TABLE 5

<i>Years ending</i>	2012	2011
Certificates of participation	\$ 2,595,431	\$ 2,709,534
General obligation bonds	57,472,813	58,161,068
Bond premium	644,681	705,793
Accumulated vacation - net	1,970,195	1,795,225
Supplemental employees retirement plan	8,370,838	7,108,859
Capital leases	339,648	620,506
Other post employment benefits	17,197,592	13,895,304
Totals	\$ 88,591,198	\$ 84,996,289

The State limits the amount of general obligation debt school districts can issue to 2.5 percent of the assessed value of all taxable property within a district's legal boundaries.

Other financial obligations include compensated absences payable, certificates of participation, capital leases and other long-term debt. We present more detailed information regarding the District's long-term liabilities in Note 8 of the financial statements.

SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2011-2012 ARE NOTED BELOW:

California's ongoing fiscal crisis continues to create significant fiscal and programmatic challenges for school districts across California and in the District. Fiscal Year 2011-12 marked the fifth straight year the district has had to endure ongoing state education cuts and continued uncertainty regarding its future finances. The effects of the *Great Recession* continued to hamper California's economic growth and its ability to adequately fund public education. As a result, all California school districts went through the year with great uncertainty.

If there was a theme for district's current fiscal situation it would be "cautious optimism." Over the past five years, the district has taken proactive steps to control deficit spending, while protecting its core instructional programs. This has not been an easy task. All employees, schools, and programs have been adversely impacted in one measure or another. The past five years have witnessed an unprecedented \$18.5 million in ongoing spending reductions and no increases in state funding to offset cost increases.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2012

The District's major accomplishments for 2011-12 include:

- Continued protection of funding for vital student services such as libraries, athletics, after-school enrichment, school counselors, and home-to-school transportation
- Maintained overall funding and staffing for core instructional and operational programs at current levels with no budget related layoffs and/or position eliminations
- Restoration of five instructional days and elimination of employee furloughs
- An expanded educational services program that includes services for teacher and administrator professional development, intervention programs for English learners and other at-risk students, and improving academic standards and accountability
- Prioritized critical deferred maintenance programs for facility repairs and improvements across the district
- Maintained a vibrant instructional technology program, with expanded services in Aptos area schools, while maintaining federal E-Rate funding in Watsonville area schools
- Engaged in improved and ongoing fiscal transparency and communication on fiscal, budget, and facility planning matters

The District also continued to maintain strong reserves and fund balances. This forethought on behalf of the Board of Trustees provided increased flexibility to protect vital instructional programs in the midst of unprecedented reductions in state education funding. So much so, that the District and its employee organizations were able to reach agreement earlier this year to restore instructional days and employee furloughs that were reduced two years ago. This was not an option available to many other school districts in the region.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the District Budget for the 2012/2013 year, the District Board and management used the following criteria:

The key assumptions in our revenue forecast are:

1. No COLA funding for revenue limit funding with a 22 percent deficit factor.
2. State grants received no COLA including Special Education.
3. The sweeping of most State grants in Tier III.
4. Exhaustion of all Federal ARRA and Education Jobs Fund dollars.
5. Developer fee collections have been reduced substantially due to a decrease in development in the surrounding area.
6. The District's ADA has been projected 50 less than prior year due to the fact Ceiba College Preparatory Academy (newest Charter School) continues to grow.
7. Employee benefits will be increased by 10%.
8. Step and Column increases are reflected.

GOVERNMENTAL FUNDS

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS JUNE 30, 2012

Amounts Reported for Governmental Activities in the Statement of Net Assets are Different Because:

Total Fund Balance - Governmental Funds	\$ 58,190,623
---	---------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.

The cost of capital assets is	\$ 283,173,207	
Accumulated depreciation is	(127,901,512)	
Net Capital Assets		155,271,695

In governmental funds, unmatured interest on long-term debt is recognized in the period when it is due. On the government-wide statements, unmatured interest on long-term debt is recognized when it is incurred.

(824,591)

An internal service fund is used by the District's management to charge the costs of the self insurance programs to the individual funds. The assets and liabilities of the internal service fund are included with governmental activities.

9,415,417

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds.

Long-term liabilities at year end consist of:

Bonds payable	57,472,813	
Unamortized bond premium	644,681	
Certificates of participation	2,595,431	
Capital leases payable	339,648	
Compensated absences (vacations)	1,970,195	
Supplemental employee retirement plan	8,370,838	
OPEB obligations	17,197,592	
Total Long-Term Liabilities		(88,591,198)
Total Net Assets - Governmental Activities		\$ 133,461,946

The accompanying notes are an integral part of these financial statements.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2012

Total Net Change in Fund Balances - Governmental Funds \$ 6,592,846
Amounts Reported for Governmental Activities in the Statement of
Activities are Different Because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities.

This is the amount by which depreciation exceeds capital outlays in the period:

Depreciation expense	\$ (11,358,694)	
Capital outlays	<u>1,078,035</u>	
Net Expense Adjustment		(10,280,659)

In the statement of activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation used was less than the amounts earned by \$174,970.

(174,970)

Amortization of bond premium is a revenue source in the statement of activities, but is not recognized in the governmental funds.

61,112

Payment of capital leases is an expenditure in the governmental funds, but it reduces long-term liabilities in the statement of net assets and does not affect the statement of activities.

280,858

Payment of the principal of certificates of participation is an expenditure in the governmental funds, but reduces the long-term liabilities in the statement of net assets and does not affect the statement of activities.

114,103

Payment of the principal of general obligation bonds is an expenditure in the governmental funds, but reduces the long-term liabilities in the statement of net assets and does not affect the statement of activities.

1,755,000

The accompanying notes are an integral part of these financial statements.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES (continued) FOR THE YEAR ENDED JUNE 30, 2012

Interest on long-term debt is recorded as an expenditure in the funds when it is due; however, in the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due.	49,659
Accreted interest on capital appreciation bonds is not recorded in the governmental funds, but it increases the bond principals in the statement of net assets and increases interest expense in the statement of activities.	(1,066,745)
Contributions to the retiree benefit trust fund are recorded as an expense in the governmental funds when paid. However, the difference between the annual required contribution and the actual contribution made, if less, is recorded in the statement of activities as an expense. The actual amount of the contribution was less than the annual required contribution.	(3,302,288)
Obligations for supplemental employee retirement plan (SERP) is not recorded in the governmental funds, but it increases the long-term liabilities in the statement of net assets and increases expenses in the statement of activities.	(4,611,435)
Supplemental employee retirement plan payment is an expenditure in the governmental funds, but it decreases the long-term liabilities in the statement of net assets and does not affect the statement of activities.	3,349,456
An internal service fund is used by the District's management to charge the costs of the various insurance programs to the individual funds. The net revenue of the internal service fund is reported with governmental activities.	3,592,050
Change in Net Assets of Governmental Activities	<u>\$ (3,641,013)</u>

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Pajaro Valley Unified School District was unified in 1964 under the laws of the State of California. The District operates under a locally elected seven-member Board form of government and provides educational services to grades K - 12 as mandated by the State and/or Federal agencies. The District operates sixteen elementary, six middle, three high school, one community day school, one continuation high school, an adult education school, twelve childcare centers, a migrant center and five charter schools.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Pajaro Valley Unified School District, this includes general operations, food service, and student related activities of the District.

Component Units – Charter Schools

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. For financial reporting purposes, the component units have a financial and operational relationship which meets the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, and thus are included in the financial statements of the District. The component units, although legally separate entities, are reported in the financial statements using the blended presentation method as if they were part of the District's operations because the governing board of the component units is essentially the same as the governing board of the District and because their purpose is to operate charter schools authorized by the District.

The District has approved Charters for Academic Vocational, Alianza Elementary, Linscott Elementary, Watsonville School of Arts and Pacific Coast Charter School pursuant to Education Code Section 47605. All Charter Schools are operated by the District and their financial activities are accounted for in the charter school special revenue fund.

Joint Powers Agencies and Public Entity Risk Pools The District is associated with Schools Association For Excess Risk (SAFER), School Alliance for Workers' Compensation Excess II (SAWCXII), and public entity risk pools Benefit Liability Excess Fund (BeLiEF) that provides insurance coverage to the District. These organizations do not meet the criteria for inclusion as component units of the District. The District also participates in the Henry J. Mello Center for the Performing Arts Administration Agency (the JPA), through a joint powers agreement with the City of Watsonville and the District. Each member's board appoints three directors. The JPA was established for the purpose of administering all functions necessary for the operation and maintenance of the Performing Arts Center (the Center). On August 2, 1994, the JPA entered into a management, operation and maintenance agreement with the Pajaro Valley Performing Arts Association (PVPAA), a tax exempt, nonprofit public benefit corporation. The agreement was for a period of ten years and has been reviewed and continued annually, whereby; PVPAA shall operate the Center and perform all services reasonably required

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

in connection with the management and operation of the Center. PVPAA shall pay costs and operating expenses of every kind pertaining to the Center's operation by PVPAA.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Cafeteria Fund The Cafeteria Fund is used to account separately for federal, State, and local resources to operate the food service program (*Education Code* sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Charter Schools Fund This fund may be used by authorizing Districts to account separately for the activities of District-operated charter schools that would otherwise be reported in the authorizing District's General Fund.

Adult Education Fund The Adult Education Fund is used to account separately for federal, State, and local resources committed for adult education programs and is to be expended for adult education purposes only.

Child Development Fund The Child Development Fund is used to account separately for federal, State, and local revenues to operate child development programs and is to be used only for expenditures for the operation of child development programs.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Deferred Maintenance Fund The Deferred Maintenance Fund is used to account separately for resources committed for deferred maintenance purposes.

Debt Service Funds The Debt Service funds are used to account for the accumulation of restricted, committed, or assigned resources for and the payment of principal and interest on general long-term obligations.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a District (*Education Code* sections 15125-15262).

Capital Project Funds The Capital Project funds are used to account for and report financial resources that are restricted, committed, or assigned to the acquisition or construction of capital facilities and other major capital assets (other than those financed by proprietary funds and trust funds).

Building Fund The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* sections 17620-17626. Expenditures are restricted to the purposes specified in *Government Code* sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

County School Facilities Fund The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), or the 2004 State School Facilities Fund (Proposition 55) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service. The District has only one internal service fund which is Self-Insurance fund.

Self-Insurance Fund Self-Insurance funds may be used to account for any activity for which goods or services are provided to other funds of the District in return for a fee to cover the cost of operations. The District operates workers' compensations, health, dental and vision programs that are accounted for in the Self-Insurance fund.

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Trust funds are used to account for the assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore, not available to support the District's own programs. The District's trust funds are Retiree Benefits Trust and Private Purpose Scholarship Trust. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each governmental function and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net assets restricted for other activities result from special revenue funds and the restrictions on their net asset use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Proprietary Funds Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net assets. The statement of changes in fund net assets presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Revenue Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as deferred revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the government-wide statements.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2012, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in County and State investment pools are determined by the program sponsor.

Prepaid Expenditures

Prepaid expenditures (expenses) represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures/expenses over the benefiting period.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental type funds and expenses in the proprietary type funds when used.

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$25,000 with the exception to federally funded equipment which has a threshold of \$2,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net assets. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements, 5 to 50 years; equipment, 2 to 15 years.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental column of the statement of net assets.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified and certificated school members who retire after January 1, 1999. At retirement, each member will receive service credit for each day of unused sick leave per STRS and PERS regulations.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

Deferred Issuance Costs, Premiums and Discounts

In the government-wide financial statements, long-term debt obligations and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Fund Balances - Governmental Funds

As of June 30, 2012, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board.

Unassigned - all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are interfund insurance premium. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the fund.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental columns of the statement of activities.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1st of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes on-behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Santa Cruz bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

New Accounting Pronouncements

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34*. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, were amended to better meet user needs and to address reporting entity issues that have arisen since the issuance of those Statements.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

This Statement modifies certain requirements for inclusion of component units in the financial reporting entity. For organizations that previously were required to be included as component units by meeting the fiscal dependency criterion, a financial benefit or burden relationship also would need to be present between the primary government and that organization for it to be included in the reporting entity as a component unit. Further, for organizations that do not meet the financial accountability criteria for inclusion as component units but that, nevertheless, should be included because the primary government's management determines that it would be misleading to exclude them, this Statement clarifies the manner in which that determination should be made and the types of relationships that generally should be considered in making the determination.

This Statement also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances. For component units that currently are blended based on the "substantively the same governing body" criterion, it additionally requires that (1) the primary government and the component unit have a financial benefit or burden relationship or (2) management (below the level of the elected officials) of the primary government have operational responsibility (as defined in paragraph 8a) for the activities of the component unit. New criteria also are added to require blending of component units whose total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The blending provisions are amended to clarify that funds of a blended component unit have the same financial reporting requirements as a fund of the primary government. Lastly, additional reporting guidance is provided for blending a component unit if the primary government is a business-type activity that uses a single column presentation for financial reporting.

This Statement also clarifies the reporting of equity interests in legally separate organizations. It requires a primary government to report its equity interest in a component unit as an asset. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012. Early implementation is encouraged.

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities.

Concepts Statement No. 4 also identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011. Earlier implementation is encouraged.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined the elements included in financial statements, including deferred outflows of resources and deferred inflows of resources. In addition, Concepts Statement No. 4 provides that reporting a deferred outflow of resources or a deferred inflow of resources should be limited to those instances identified by the Board in authoritative pronouncements that are established after applicable due process. Prior to the issuance of this Statement, only two such pronouncements have been issued. Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, requires the reporting of a deferred outflow of resources or a deferred inflow of resources for the changes in fair value of hedging derivative instruments, and Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*, requires a deferred inflow of resources to be reported by a transferor government in a qualifying service concession arrangement. This Statement amends the financial statement element classification of certain items previously reported as assets and liabilities to be consistent with the definitions in Concepts Statement No. 4.

This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term *deferred* in financial statement presentations.

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Earlier implementation is encouraged.

In March 2012, the GASB issued Statement No. 66, *Technical Corrections—2012—an amendment of GASB Statements No. 10 and No. 62*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.

This Statement amends Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, by removing the provision that limits fund-based reporting of an entity's risk financing activities to the General Fund and the internal service fund type. As a result, governments should base their decisions about fund type classification on the nature of the activity to be reported, as required in Statements No. 54 and Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

This Statement also amends Statement No. 62 by modifying the specific guidance on accounting for (1) operating lease payments that vary from a straight-line basis, (2) the difference between the initial investment (purchase price) and the principal amount of a purchased loan or group of loans, and (3) servicing fees related to mortgage loans that are sold when the stated service fee rate differs significantly from a current (normal) servicing fee rate. These changes clarify how to apply Statement No. 13, *Accounting for Operating Leases with Scheduled Rent Increases*, and result in guidance that is consistent with the requirements in Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, respectively.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Earlier implementation is encouraged.

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*—an amendment of Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by State and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not covered by the scope of this Statement.

Statement No. 67, *Financial Reporting for Pension Plans*, revises existing standards of financial reporting for most pension plans. This Statement and Statement No. 67 establish a definition of a pension plan that reflects the primary activities associated with the pension arrangement - determining pensions, accumulating and managing assets dedicated for pensions, and paying benefits to plan members as they come due.

The scope of this Statement addresses accounting and financial reporting for pensions that are provided to the employees of State and local governmental employers through pension plans that are administered through trusts that have the following characteristics:

Contributions from employers and nonemployer contributing entities to the pension plan and earnings on those contributions are irrevocable.

Pension plan assets are dedicated to providing pensions to plan members in accordance with the benefit terms.

Pension plan assets are legally protected from the creditors of employers, nonemployer contributing entities, and the pension plan administrator. If the plan is a defined benefit pension plan, plan assets also are legally protected from creditors of the plan members.

This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

This Statement is effective for fiscal years beginning after June 15, 2014. Earlier implementation is encouraged.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

NOTE 2 – DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2012, are classified in the accompanying financial statements as follows:

Governmental funds	\$ 16,677,021
Proprietary fund	24,179,534
Fiduciary funds	5,762,274
Total Deposits and Investments	<u>\$ 46,618,829</u>

Deposits and investments as of June 30, 2012, consist of the following:

Cash on hand and in banks	\$ 2,679,755
Cash in revolving	120,000
Investments	43,819,074
Total Deposits and Investments	<u>\$ 46,618,829</u>

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

General Authorizations

Limitations as they relate to interest rate risk and concentration of credit risk are indicated in the schedules below:

Authorized Investment Type	Maximum Remaining Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in the U.S. Government bonds are not required to be rated, nor have they been rated as of June 30, 2012. Pooled investments, such as the county pool and mutual funds were not rated.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the county pool.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

Investment Type	Cost	Fair Value	Maturity in Years
U.S. Government Bonds	\$ 19,900	\$ 27,454	4.88
Mutual Funds	2,019,083	2,109,208	0.00
County Pool	41,689,966	41,667,787	1.09
Total	<u>\$ 43,728,949</u>	<u>\$ 43,804,449</u>	

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2012, the District's bank balance of \$803,234 was exposed to custodial credit risk because it was uninsured but collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

Custodial Credit Risk - Investments

This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The District is exposed to custodial credit risk related to investments in the Santa Cruz County pool and the District's investments in mutual funds related to the trust fund of the retiree benefits because these investments are held by the counter party's name and not registered in the name of the District.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

NOTE 3 - RECEIVABLES

Receivables at June 30, 2012, consisted of intergovernmental grants, entitlements, interest and other local sources. All receivables are considered collectible in full.

	General Fund	Cafeteria Fund	Non-Major Governmental Funds	Total	Proprietary Fund	Fiduciary Funds
Federal Government						
Categorical aid	\$ 9,705,097	\$ 1,454,932	\$ 310,193	\$ 11,470,222	\$ -	\$ -
State Government						
Apportionment	25,369,671	-	2,230,525	27,600,196	-	-
Categorical aid	5,051,260	114,625	192,097	5,357,982	-	-
Lottery	1,196,390	-	112,979	1,309,369	-	-
Other Local Sources	480,130	-	126,069	606,199	299,660	1,000
Total	<u>\$ 41,802,548</u>	<u>\$ 1,569,557</u>	<u>\$ 2,971,863</u>	<u>\$ 46,343,968</u>	<u>\$ 299,660</u>	<u>\$ 1,000</u>

NOTE 4 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2012, was as follows:

	Balance July 1, 2011	Additions	Deductions	Balance June 30, 2012
Governmental Activities				
Capital Assets Not Being Depreciated:				
Land	\$ 17,055,144	\$ -	\$ -	\$ 17,055,144
Construction in Progress	3,650,529	333,164	3,480,086	503,607
Total Capital Assets Not Being Depreciated	20,705,673	333,164	3,480,086	17,558,751
Capital Assets Being Depreciated:				
Buildings and Improvements	257,091,833	3,973,804	-	261,065,637

NOTE 8 - LONG-TERM OBLIGATIONS

Summary

The changes in the District's long-term obligations during the year consisted of the following:

	Balance June 30, 2011	Accretion/ Additions	Deductions	Balance June 30, 2012	Due in One Year
General obligation bonds	\$ 58,161,068	\$ 1,066,745	\$ 1,755,000	\$ 57,472,813	\$ 1,970,000
Bond premium	705,793	-	61,112	644,681	61,112
Certificates of participation	2,709,534	-	114,103	2,595,431	121,107
Accumulated vacation - net	1,795,225	174,970	-	1,970,195	-
Capital leases	620,506	-	280,858	339,648	168,025
Other postemployment benefits	13,895,304	7,795,167	4,492,879	17,197,592	-
Supplemental employees retirement benefits	7,108,859	4,611,435	3,349,456	8,370,838	3,338,852
Total	<u>\$ 84,996,289</u>	<u>\$ 13,648,317</u>	<u>\$ 10,053,408</u>	<u>\$ 88,591,198</u>	<u>\$ 5,659,096</u>

Payments on the general obligation bonds are made by the Bond Interest and Redemption Fund with local revenues. Payments on Certificate of Participation and the capital leases are paid by the General Fund, the Charter School Fund and the Adult Education Fund. The energy service contract payments are made by the general fund. Accumulated vacation and supplemental employees retirement benefits are paid by the funds for which the employees worked.

Certificates of Participation

In April 5, 2005, the Pajaro Valley Unified School District issued certificates of participation in the amount of \$1,645,000 to finance construction related to the Adult Education Center. At June 30, 2012, the principal balance outstanding was \$1,275,000. During the current year the District redeemed 65,000 of the outstanding certificates.

In January 10, 2010, the Pajaro Valley Unified School District issued certificates of participation in the amount of \$1,415,000 to redeem existing certificates of participation. Interest on this certificate of participation is set at 1.010%. At June 30, 2012 the principal balance outstanding was \$1,320,431. Principal and interest payments are due twice a year starting July 15, 2010 over the next twenty years and are expected to be complete redeemed by January 15, 2030. During the current year the District redeemed \$49,103 of the outstanding certificates.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

The certificates mature through 2030 as follows:

Year Ending June 30,	Principal	Interest	Total
2013	\$ 121,107	\$ 105,122	\$ 226,229
2014	123,193	100,543	223,736
2015	130,364	95,603	225,967
2016	137,623	90,244	227,867
2017	139,974	84,692	224,666
2018-2022	793,642	330,525	1,124,167
2023-2027	858,613	147,092	1,005,705

Total	<u>\$ 2,595,431</u>	<u>\$ 974,731</u>	<u>\$ 3,570,162</u>

Accumulated Unpaid Employee Vacation

The long-term portion of accumulated unpaid employee vacation for the District at June 30, 2012, amounted to \$1,970,195.

Capital Leases

The District's liabilities on lease agreements with options to purchase are summarized below:

	Porter Building	Bus and SIS System	Cafeteria Portables	Total
Balance, July 1, 2011	\$ 369,470	\$ 297,113	\$ 14,323	\$ 680,906
Payments	92,368	204,677	14,323	311,368
Balance, July 1, 2012	<u>\$ 277,102</u>	<u>\$ 92,436</u>	<u>\$ -</u>	<u>\$ 369,538</u>

The capital leases have minimum lease payments as follows:

Year Ending June 30,	Lease Payment
2013	\$ 184,802
2014	92,368
2015	92,368
Total	<u>369,538</u>
Less: Amount Representing Interest	29,890
Present Value of Minimum Lease Payments	<u>\$ 339,648</u>

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

Supplemental Employees Retirement Plan (SERP)

The outstanding balances for the Supplemental Employee Retirement Plans as of June 30, 2012, are as follows:

Year Ending June 30,	2008 Plan	2010 Plan	2011 Plan	2012 Plan	Total
2013	\$ 1,242,832	\$ 82,341	\$ 1,091,392	\$ 922,287	\$ 3,338,852
2014	-	82,341	1,091,392	922,287	2,096,020
2015	-	-	1,091,392	922,287	2,013,679
2016	-	-	-	922,287	922,287
Subtotal	<u>\$ 1,242,832</u>	<u>\$ 164,682</u>	<u>\$ 3,274,176</u>	<u>\$ 3,689,148</u>	<u>\$ 8,370,838</u>

Defeased Debt

In 2005, The District defeased the 2002, Series A bond in the amount of \$39,995,542 by creating an irrevocable trust fund. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust fund. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and, therefore, removed as a liability from the District's Long-Term Obligations. As of June 30, 2012, the amount of defeased debt outstanding that was removed from the Long Term Debt Obligations and the related trust fund account balance amounted to \$35,020,003 and \$35,302,493, respectively.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

NOTE 10 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Plan Description

The Postemployment Benefit Plan (the "Plan") is a single-employer defined benefit healthcare plan administered by the Pajaro Valley Unified School District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Membership of the Plan consists of 275 retirees and beneficiaries currently receiving benefits and 1,672 active plan members. The Plan is presented in these financial statements as the Retiree Benefits Trust Fund. Separate financial statements are not prepared for the Trust.

Contribution Information

The contribution requirements of plan members and the District are established and may be amended by the District and the Teachers Association (PVFT), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements between the District, PVFT, CSEA and the unrepresented groups. For fiscal year 2011-2012, the District contributed \$4,492,879 to the plan, all of which was used for current premiums (approximately 100% percent of total premiums incurred by retirees plus one eligible dependent).

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	\$ 6,822,496
Interest on net OPEB obligation	972,671
Annual OPEB cost (expense)	7,795,167
Contributions made	(4,492,879)
Increase in net OPEB obligation	3,302,288
Net OPEB obligation, beginning of year	13,895,304
Net OPEB obligation, end of year	\$ 17,197,592

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for 2012, 2011, and 2010, respectively, was as follows:

Year Ended June 30, 2012	OPEB Cost	Amount Contributed	Percentage Contributed	Net OPEB Obligation
2012	\$ 7,795,167	\$ (4,492,879)	-57.64%	\$ 17,197,592
2011	6,539,254	3,090,172	46.26%	13,895,304
2010	6,367,435	2,917,171	45.81%	10,446,222

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

Funded Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. The following shows the funded status for the most recent actuarial valuation:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ([b - a] / c)
April 1, 2011	\$ 1,913,997	\$ 64,844,554	\$ 62,930,557	2.95%	\$ 90,439,263	69.58%

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the April 1, 2011, actuarial valuation, the Entry age normal actuarial cost method was used. The actuarial assumptions included a 7% percent investment rate of return (net of administrative expenses), based on the plan being funded in an irrevocable employee benefit trust invested in a combined equity and fixed income portfolio. Healthcare, dental, and vision cost trend rates were averaged at 4% percent. The UAAL is being amortized at a level percentage of payroll method on an open basis. The remaining open amortization period at April 1, 2011, was 30 years. The actuarial value of assets as of April 1, 2011 was \$1,913.997.

NOTE 11 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2012, the District contracted with Schools Association For Excess Risk for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

Workers' Compensation

The District's workers' compensation activities are recorded in the Internal Service Fund. The purpose of the fund is to administer workers' compensation on a cost reimbursement basis. The program accounts for the risk financing activities of the District.

Coverage provided by the Schools Association for Excess Risk for Property and Liability and the Pajaro Valley Unified School District Worker's Compensation Self-Insurance Program is as follows:

Insurance Program / Company Name	Type of Coverage	Limits
Pajaro Valley Unified School District Workers' Compensation Self-Insurance Program	Workers' Compensation	\$ 500,000
School Alliance Workers' Compensation Excess	Excess Workers' Compensation	State Statutory Limit
Benefit Liability Excess Fund	Excess Medical	260,000
Schools Association For Excess Risk	Property	250,000,000
Schools Association For Excess Risk	Liability	25,000,000
Schools Association For Excess Risk	Excess Liability	24,000,000

Claims Liabilities

The District records an estimated liability for workers' compensation, health care, dental and vision. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and an estimate for claims incurred, but not reported based on historical experience.

Unpaid Claims Liabilities

The fund establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represent the changes in approximate aggregate liabilities for the District from July 1, 2010 to June 30, 2012:

Liability Balance, July 1, 2010	\$ 13,866,236
Claims and changes in estimates	38,173,909
Claims payments	(38,173,909)
Liability Balance, June 30, 2011	13,866,236
Claims and changes in estimates	38,571,941
Claims payments	(37,765,043)
Liability Balance, June 30, 2012	\$ 14,673,134
Assets available to pay claims at June 30, 2012	\$ 24,088,551

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer contributory retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

CalSTRS

Plan Description

The District contributes to the California State Teachers' Retirement System (CalSTRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7667 Folsom Blvd., Sacramento, CA 95826.

Funding Policy

Active plan members are required to contribute 8.0 percent of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2011-2012 was 8.25 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalSTRS for the fiscal years ending June 30, 2012, 2011, and 2010, were \$6,154,839, \$5,909,444, and \$6,238,163, respectively, and equal 100 percent of the required contributions for each year.

CalPERS

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95811.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2012

Funding Policy

Active plan members are required to contribute 7.0 percent of their salary. At Pajaro Valley Unified School District, the district contributes the 7.0 percent on their behalf. The District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2011-2012 was 10.923 percent of covered payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalPERS for the fiscal years ending June 30, 2012, 2011, and 2010, were \$2,900,530, \$2,812,325, and \$2,595,131, respectively, and equal 100 percent of the required contributions for each year.

Social Security

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use the Social Security as its alternative plan.

On Behalf Payments

The State of California makes contributions to CalSTRS and CalPERS on behalf of the District. These payments consist of State General Fund contributions to STRS in the amount of \$3,664,078, \$3,053,855, and \$3,220,581, respectively, for 2012, 2011 and 2010 (4.855 percent of annual payroll for 2012, 4.267 percent for 2011, and 4.517 percent for 2010, respectively). Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures, however, guidance received from the California Department of Education advises local educational agencies not to record these amounts in the Annual Financial and Budget Report. These amounts have been recorded in the financial statements. These amounts have not been included in the actual or budgeted amounts reported in the General Fund Budgetary Comparison Schedule. On behalf payments have been excluded from the calculation of available reserves.

NOTE 13 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2012.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2012

Litigation

The District is involved in various litigations arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the district at June 30, 2012.

NOTE 14 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS, JOINT POWER AUTHORITIES AND OTHER RELATED PARTY TRANSACTIONS

The District is a member of the Schools Association For Excess Risk (SAFER), School Alliance for Workers' Compensation Excess II (SAWCXII), Benefit Liability Excess Fund (BeLiEF) public entity risk pools (JPAs). The District pays an annual premium to the applicable entity for its property and liability coverage, excess workers' compensation and excess medical insurance. The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

The JPA has a budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. During the year ended June 30, 2012, the District made payments of \$126,359 to SAWCXII for excess workers' compensation insurance, \$1,895,657 to BeLiEF for excess medical insurance and \$719,143 to SAFER for excess property and liability insurance.

K-12 AVERAGE DAILY ATTENDANCE AT P-2 ⁴	17,156	17,199	16,970	16,841

The General Fund balance has increased by \$15,284,031 over the past two years. The fiscal year 2012-2013 budget projects a decrease of \$8,961,741. For a district this size, the State recommends available reserves of at least 3 percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred three operating surpluses in the past three years, but anticipates incurring an operating deficit during the 2012-2013 fiscal year. Total long-term obligations have increased by \$9,369,085 over the past two years.

Average daily attendance has increased by 358 over the past two years. A decline of 43 ADA is anticipated during fiscal year 2012-2013.

¹ Budget 2013 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.

³ On-behalf payments of \$3,664,078, \$3,053,855, and \$3,220,581, in the General Fund have been excluded from the revenues and expenditures for fiscal years ending June 30, 2012, 2011, and 2010, respectively.

⁴ Excludes Adult Education and Charter Schools ADA.

See accompanying note to supplementary information.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2012

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures and Changes in Fund Balance and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts represent Federal funds that had been recorded as revenues in the fiscal year ended June 30, 2011 then spent during the fiscal year ended June 30, 2012. The unspent balances are reported as legally restricted ending fund balances within the General Fund.

Description	CFDA Number	Amount
Total Federal Revenues per Statement of Revenues, Expenditures and Changes in Fund Balance:		\$ 44,186,773
Add: Expenditures for State Fiscal Stabilization Funds in excess of amounts received	84.394	522,575
Add: Fair Market Value of Commodities not recorded in the financial statements	10.555	207,783
Total Schedule of Expenditures of Federal Awards		<u>\$ 44,917,131</u>

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2012

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

Districts must maintain their instructional minutes at either the 1982-83 actual minutes or the 1986-87 requirement, whichever is greater, as required by Education Code Section 46201.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Schedule of Charter Schools

This schedule lists all Charter Schools chartered by the School District, and displays information for each Charter School on whether or not the Charter School is included in the School District audit.

Charter School Statement of Changes in Fund Balances

The charter school schedule of changes in fund balances provides information about the changes in fund balance in each of the five charter schools operated by the District.

First 5 Monterey Grant Schedule of Revenues and Expenditures

The First 5 Monterey grant schedule of revenues and expenditures provides information about the current year revenues and expenses of the grant program operated by the District.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balance is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balance.

INDEPENDENT AUDITOR'S REPORTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Governing Board
Pajaro Valley Unified School District
Watsonville, California

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pajaro Valley Unified School District as of and for the year ended June 30, 2012, which collectively comprise Pajaro Valley Unified School District's basic financial statements and have issued our report thereon dated December 14, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Pajaro Valley Unified School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Pajaro Valley Unified School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Pajaro Valley Unified School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Pajaro Valley Unified School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pajaro Valley Unified School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the governing board, management, the California Department of Education, the State Controller's Office, Federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL
EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Governing Board
Pajaro Valley Unified School District
Watsonville, California

Compliance

We have audited Pajaro Valley Unified School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Pajaro Valley Unified School District's major Federal programs for the year ended June 30, 2012. Pajaro Valley School District's major Federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of Pajaro Valley Unified School District's management. Our responsibility is to express an opinion on Pajaro Valley Unified School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Pajaro Valley Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Pajaro Valley Unified School District's compliance with those requirements.

In our opinion, Pajaro Valley Unified School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

The management of Pajaro Valley Unified School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered Pajaro Valley Unified School District's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Pajaro Valley Unified School District's internal controls over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the governing board, management, the California Department of Education, the State Controller's Office, Federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Governing Board
Pajaro Valley Unified School District
Watsonville, California

We have audited Pajaro Valley Unified School District's compliance with the requirements as identified in the *Standards and Procedures for Audit of California K-12 Local Educational Agencies*, applicable to Pajaro Valley Unified School District's government programs as noted below for the year ended June 30, 2012. Compliance with the requirements referred to above is the responsibility of Pajaro Valley Unified School District's management. Our responsibility is to express an opinion on Pajaro Valley Unified School District's compliance based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2011-2012* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about Pajaro Valley Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of Pajaro Valley Unified School District's compliance with those requirements.

In our opinion, Pajaro Valley Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2012, except as described in the Schedule of State Awards Findings and Questioned Costs section of the accompanying Schedule of Findings and Questioned Costs.

In connection with the audit referred to above, we selected and tested transactions and records to determine the Pajaro Valley Unified School District's compliance with the State laws and regulations applicable to the following items:

	Procedures in Audit Guide	Procedures Performed
Attendance Accounting:		
Attendance reporting	6	Yes
Teacher Certification and Misassignments	3	Yes
Kindergarten continuance	3	Yes
Independent study	23	Yes
Continuation education	10	Yes

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

STATE AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2012

The following findings represent instances of noncompliance and/or questioned costs relating to State program laws and regulations. The findings have been coded as follows:

Five Digit Code
40000

AB 3627 Finding Type
State Compliance

2012-1 **Code : 40000 State Compliance**

Criteria or Specific Requirements

Local Educational Agencies that offer short-term independent study to students must obtain a written agreement with signatures affixed before the commencement of the independent study by the pupil, the pupils parents or guardian, the certificated employee who has been designated as having responsibility for the general supervision of independent study, and any other person(s) who had direct responsibility for providing assistance to the pupil or adult education student.

Condition

Written agreements for independent study allowed did not have the pupil's signature affixed to the document.

Questioned Costs

\$10,400.

Context

Auditors inspected the records for three of the short-term independent study agreements entered into. Of those, two did not have signatures by the pupils.

Effect

The California Educational Code requires signatures by the pupils to validate the pupil understands the nature and extend of the work to be completed outside of school.

Cause

School site personnel were unaware of this requirement.

Recommendation

We recommend that the District provide regular and updated training and information to school site personnel in-charge of attendance and short-term independent study programs regarding the requirements for short-term independent study programs on a regular basis.

Corrective Action Plan

Implement recommendations.

PAJARO VALLEY UNIFIED SCHOOL DISTRICT

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2012

Except as specified in previous sections of this report, summarized below is the current status of all audit findings reported in the prior year's schedule of financial statement findings.

Financial Statement Findings

2011-1 Code 30000

Internal Control

Finding

An estimate for the costs related to IBNR claims was not generated for the fiscal year ended June 30, 2011.

Recommendation

The District needs to estimate the claims liability themselves on at least an annual basis, or contract out to an actuary to prepare the estimate at the end of the fiscal year, every year.

Current Status

The recommendation has been implemented.

2011-2 Code 30000

Internal Control

Finding

It was noted that a significant number of employees' time off for vacation was not properly reflected in the time accounting system of the District. In addition, the District has no cap on the number of vacation hours that can be accrued.

Recommendation

The District should consider the establishment of maximum caps for vacation accrual. Employees that hit the cap would be encouraged to use vacation to lower overall vacation liabilities throughout the District. This policy is in place in other school districts and public agencies. Finally, supervisors and managers must ensure that all employees reporting to them are filing their vacation request forms on time with the District. District leadership should establish appropriate controls and/or systems to make sure this is occurring.

Current Status

The recommendation has been implemented.

Federal Awards Findings

None reported.

State Awards Findings

None reported.
