INDEPENDENT AUDITOR'S REPORT

Governing Board
Pajaro Valley Unified School District
Watsonville, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pajaro Valley Unified School District (District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the 2017-2018 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof and for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principles

As discussed in Notes 12 and 18 to the financial statements, in 2018, the District adopted new accounting guidance, GASB Statement No. 75, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, effective July 1, 2018. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and other required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information such as the combining and individual nonmajor fund financial statements and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and the other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

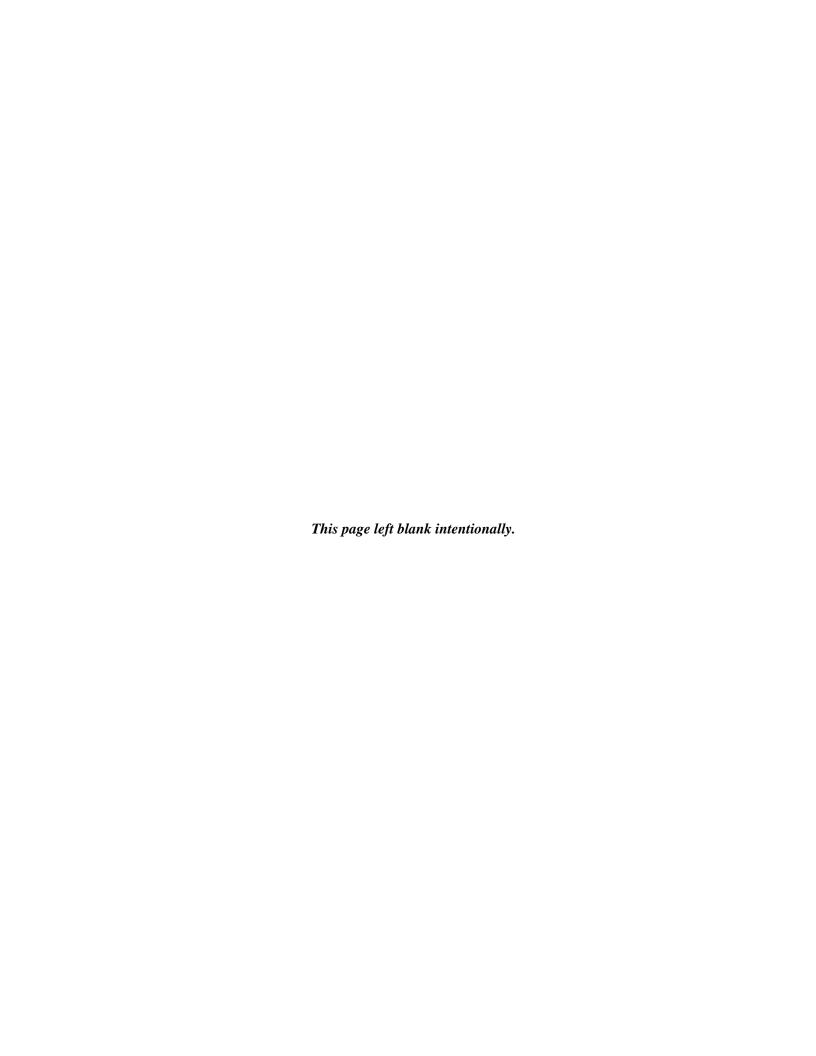

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information including the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

Varrinek, Trine, Day & Co. LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

Palo Alto, California December 15, 2018

294 Green Valley Road, Watsonville, CA 95076 (831) 786-2100

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis section of the 2017-2018 Annual Financial Audit summarizes the District's financial performance during the 2017-2018 fiscal year ending June 30, 2018. The District's financial systems and reporting adhere to standards and requirements prescribed under the Governmental Accounting Standards Board (GASB), State Board of Education, federal law, and the California *Education Code*.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Pajaro Valley Unified School District (the District) using the integrated approach as prescribed by GASB Statement Number 34.

- The Government-Wide Financial Statements present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. They present major governmental activities in accordance with accrual accounting. These statements include all assets of the District (including capital assets), as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred as prescribed by the statement in regards to inter-fund activity, payables, and receivables.
- The *Fund Financial Statements* include statements for each of the three categories of activities: governmental, proprietary, and fiduciary.
- The Governmental Fund Financial Statements are prepared using the current financial resources measurement focus and modified accrual basis of accounting.
- The *Proprietary Fund Financial Statements* are prepared using the economic resources measurement focus and the accrual basis of accounting.
- The *Fiduciary Fund Financial Statements* are prepared using the economic resources measurement focus and the accrual basis of accounting.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

The Pajaro Valley Unified School District is the primary governmental agency represented in this audit. The District also includes five charter schools established and overseen pursuant to the *Education Code*. They include Linscott Charter School, Watsonville Charter School of the Arts, Pacific Coast Charter School, Alianza Charter School, and Diamond Technology Institute. Financial information for the charter schools is included in the special revenue, charter school fund of the District. Separately issued financial statements for the charter schools are not prepared.

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The Statement of Net Position and the Statement of Activities report information about the District as a whole and its activities. These statements include all assets and liabilities using the accrual basis of accounting. All current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in it. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. These statements are one measure of the District's financial health and position. Over time, increases or decreases in the District's net position is one indicator of whether the financial position of the District is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

Overall, these factors are subject to significant influences from state and federal education funding policies. As a result of current economic conditions, they have undergone dramatic fluctuations over the past five fiscal years. These changes have largely been unforeseen and unprecedented. Projections indicate this condition will continue over the next two fiscal years.

The relationship between revenues and expenses is the District's operating results. Since the Board's responsibility is to provide services to all students, and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the instructional program, academic achievement among students, and the safety and condition of school facilities are important components in the evaluation of District effectiveness.

In the Statement of Net Position and the Statement of Activities, we include the District activities as follows:

Governmental Activities - All of the District's services are reported in this category. This includes the education of transitional kindergarten through grade twelve students, adult education students, the operation of child development activities, other student services, and the on-going effort to improve and maintain buildings and sites. Property taxes, state education funding, user fees, interest income, federal, state and local grants, as well as general obligation bonds, finance these activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by state law and by general obligation bond covenants. In addition, District leadership establishes many other funds to provide appropriate fiscal control and accountability to manage money for particular purposes. Specified funds will also provide legally required reporting demonstrating the District's compliance with state and federal education funding requirements and other legal/statutory guidelines.

Governmental Funds - Most of the District's basic services are reported in governmental funds. These focus on how money flows into and out of those funds and the balances left at year-end. Specific funds are reported using an accounting method called *modified accrual accounting*, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance District programs. The differences of results in the governmental fund financial statements compared to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary Funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses and Changes in Fund Net Position. The District uses internal service funds to report activities that provide supplies and services for the District's other programs and activities - such as the District's Self-Insurance Fund. The Internal Service Fund is reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for funds held on behalf of others, such as funds for associated student body activities, scholarships, and employee retiree benefits. The District's fiduciary activities are reported in the Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its general operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

THE DISTRICT AS A WHOLE

Net Position

The District's net position was a deficit of \$149.6 million and a deficit of \$120.1 million for the fiscal years ended June 30, 2018 and 2017, respectively. Of this amount, a deficit net position of \$216.3 million and \$190.7 million were unrestricted for fiscal years ending June 30, 2018 and 2017, respectively. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School Board's ability to use net position for day-to-day operations. Our analysis below focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

TABLE 1

	Governmental Activities		
	2018	2017	
Current and other assets	\$ 168,073,698	\$ 169,290,675

Total Net Position, as restated	\$ (149,548,442)	\$ (120,052,769)	

The deficit unrestricted net position of \$216.3 million represents the accumulated results of all past years' operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

Changes in Net Position

The results of 2017-2018 general operations for the District as a whole are reported in the Statement of Activities. Table 2 takes the information from the Statement and rearranges it slightly so you can see our total revenues and expenses for the year.

TABLE 2

	2018	2017
Revenues		
Program revenues:		
Charges for services	\$ 1,229,915	\$ 826,874
Operating grants and contributions	79,219,981	76,640,070
General revenues:		
Federal and state sources	123,789,468	124,627,907
Property taxes	82,872,318	76,493,999

Maintenance and operations	25,695,245	21,244,692
Other	14,290,868	 9,909,215
Total Expenses	323,859,076	299,796,018
Change in Net Position	\$ (29,495,673)	\$ (15,669,280)

Governmental Activities

As reported in the Statement of Activities, the cost of all governmental activities in 2017-2018 was \$323.9 million. However, the amount that District taxpayers ultimately financed for related activities through local taxes was only \$82.9 million. This is because \$80.4 million was paid by those benefiting from District programs or by other governments and organizations who subsidized certain programs with grants and contributions. The District paid for the remaining "public benefit" portion of its governmental activities with \$131 million in State and federal funds and with other revenues, such as interest and general entitlements.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

In Table 3, we have presented the net cost of each of the District's largest functions (total cost less revenues generated by the activities). As noted above, net cost includes the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows members of the public to consider the cost of each function in comparison to the benefits they believe are provided by that function.

TABLE 3

	Net Cost of Services			
	2018	2017		
Instruction and instruction related	\$ 173,959,583	\$ 164,307,347		
Pupil services	26,747,383	22,615,459

Other	11,198,535	8,837,750		
Totals	\$ 243,409,180	\$ 222,329,074		

GENERAL FUND HIGHLIGHTS

A district of this size and complexity will often see a three to five percent swing in its final ending balance between estimated and unaudited actuals. In addition, District revenues and expenditures are now influenced by changes in the state's Local Control Funding Formula (LCFF). In 2016-2017, the District's ending balance decreased by 2.7 percent from the June estimates. For 2017-2018, the ending balance decreased by 2.9 percent. This was primarily due to increases in LCFF revenue adopted by the state and an increase in expenditures. District staff provided the Board of Trustees and public information highlighting projected and actual variances to the District's expenditures and revenues over the course of the fiscal year. This is a standard practice. This information can be found on the District's website (www.pvusd.net) in the Business Services section.

2017-2018 fiscal year was the fifth year of working with the newly implemented Local Control Funding Formula (LCFF) and Local Control Accountability Plan (LCAP). The District engaged the various stakeholder groups to provide specific input and implementation requirements for the LCAP. The District continued to align the budget and its LCAP as required by law. The District's current year LCAP was adopted as part of its 2018-2019 Budget.

As part of the LCAP the District brought in additional counselor for Career Tech Ed, coaches to assist new teachers and teachers in specific content areas, and increase access to visual and performing arts curriculum.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2018 and 2017, the District had \$167.2 million and \$158.6 million, net of depreciation in a broad range of capital assets including land, buildings, furniture and equipment. This amount represents a net increase (including additions, deductions and depreciation) of \$8.6 million or 5.45%, from last year.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

TABLE 4

	Governmental Activities			ctivities
		2018		2017
Land	\$	17,055,144	\$	17,055,144
Construction in progress		43,991,349		37,384,827
Buildings and improvements		293,632,919		280,556,666
Equipment		8,980,107		8,494,254
Accumulated depreciation		(196,396,909)		(184,868,891)
Totals	\$	167,262,610	\$	158,622,000

This year's additions to capital assets of \$20.2 million (excluding depreciation) are primarily from site improvement and Measure L projects at various sites. Projects were started using the District's Measure L general obligation bond funds and approximately \$16 million of the additions to capital assets were Measure L projects. Measure L was enacted by District voters in November 2012.

Long-Term Debt

At the end of this year, the District had \$193.2 million in bonds outstanding. The District's long-term debt is summarized below.

TABLE 5

	Governmental Activities			
	2018	2017		
General obligation bonds	\$ 193,217,383	\$ 164,830,687		
Bond premium	12,173,076	9,182,751		
Accumulated vacation - net	1,588,549	1,938,175		
Supplemental employees retirement plan	55,404	83,106		
Capital leases	445,523	1,042,215		
Other post employment benefits, as restated	76,944,271	72,011,831		
Net pension liability	228,537,536_	187,553,243		
Totals	\$ 512,961,742	\$ 436,642,008		

The State limits the amount of general obligation debt school districts can issue to 2.5 percent of the assessed value of all taxable property within a district's legal boundaries.

Other financial obligations include compensated absences payable, capital leases, and other long-term debt. We present more detailed information regarding the District's long-term obligations in Note 10 of the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

Net Pension Liability (NPL)

The District adopted Governmental Accounting Standards Board (GASB) No. 68, *Accounting and Financial Reporting for Pensions*. The pronouncement requires the District to recognize its proportional share of net pension liability of State Teachers Retirement System (CalSTRS) and California Public Employees Retirement System (CalPERS). As a result, the District reported \$228.5 million and \$187.6 million net pension liability in its statement of net position in 2017-2018 and 2016-2017, respectively.

SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2017-2018 ARE NOTED BELOW:

During the 2017-2018 fiscal years, as a result of the implementation of the LCFF and LCAP, the District experienced the following accomplishments:

- Visual and performing arts continued to expand in the elementary schools and secondary schools through providing teachers and purchased musical instruments and art supplies.
- Teachers participated in "Voice and Choice" professional development opportunities in their content and/or grade level.
- Hired additional counselors to help students with social and emotional issues.
- Added digital resources and training to support differentiation in the classroom.
- Strengthening early literacy in the primary grades.

FISCAL OUTLOOK FOR 2018-2019

In considering the District Budget for the 2018-2019 year, the District Board and management used the following criteria:

The key assumptions in our forecast are:

- 1. Projection of LCFF revenue based on the FCMAT/BASC calculator.
- 2. The District's ADA has been projected a reduction in ADA based on lower enrollment numbers.
- 3. Employee benefits will be increased by 0.8%.
- 4. STRS and PERS (employee retirement systems) rates are increasing 1.85% and 2.531%, respectively.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

The annual financial report is designed to provide District citizens, taxpayers, investors and creditors with a general overview of the District's finances and accountability for the public funds it administers under law. For additional information and/or questions about this report or other District financial activities, please contact:

Helen Bellonzi Director of Fiscal Services 294 Green Valley Road, Watsonville, CA 95076 Helen Bellonzi@pvusd.net

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2018

Total Net Change in Fund Balances - Governmental Funds Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:		\$ (32,629)
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities. This is the amount by which capital outlays exceed depreciation in the period:		
Depreciation expense	\$ (11,528,018)	
Capital outlays	 20,168,628	
Net Expense Adjustment		8,640,610
Proceeds and premium received from the sale of general obligation bonds are revenue in the governmental funds, but increases in long-term obligations in the statement of net position and does not affect the statement of activities.		(33,397,292)
In the statement of activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).		349,626
In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the statement of activities, pension expense is the net effect of all changes in the deferred outflows, deferred inflows, and net pension liability during the year.		(6,499,485)
Payment of capital leases is an expenditure in the governmental funds, but it reduces long-term liabilities in the statement of net position and does not affect the statement of activities.		596,692
Payment of the principal of general obligation bonds is an expenditure in the governmental funds, but reduces the long-term liabilities in the statement of net position and does not affect the statement of		
activities.		5,145,000

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES (Continued) FOR THE YEAR ENDED JUNE 30, 2018

Interest on long-term debt is recorded as an expenditure in the funds when it is due; however, in the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due.	(547,015)
Accreted interest on capital appreciation bonds is not recorded in the governmental funds, but it increases the bond principal in the statement of net position and increases interest expense in the statement of activities.	(3,531,696)
Other postemployement benefit expenditures are recorded in the governmental funds to the extent of amounts actually funded. However, in the statement of activities, the expense is recorded for the full amount of the accrual-basis annual OPEB cost.	(2,725,066)
Amortization of premium and refunding costs are not recorded in the governmental funds, but they impact the statement of activities. The net amortization amount during the year is as follows: Premium on general obligation bonds Defeasance costs on general obligation bonds Net amortization Authorization 406,967	125,567
Supplemental employee retirement plan payment is an expenditure in the governmental funds, but it decreases the long-term liabilities in the statement of net position and does not affect the statement of activities.	27,702
Amounts received from charter schools are recorded as revenues in the governmental funds. However, the amount received is not a revenue in the statement of activities. Instead, it decreases the loan receivable in the statement of net position.	(199,488)
An internal service fund is used by the District's management to charge the costs of the various insurance programs to the individual funds. The net expenses of the internal service fund is reported with governmental activities.	2,551,801

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Pajaro Valley Unified School District was unified in 1964 under the laws of the State of California. The District operates under a locally elected seven-member Board form of government and provides educational services to grades K - 12 as mandated by the State and/or Federal agencies. The District operates sixteen elementary, six middle, three high school, one community day school, one continuation high school, an adult education school, twelve childcare centers, a migrant center and five charter schools.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Pajaro Valley Unified School District, the primary government includes general operations, food service, and student related activities of the District.

Component Units - Charter Schools

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. For financial reporting purposes, the component units have a financial and operational relationship which meets the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, and thus are included in the financial statements of the District. The component units, although legally separate entities, are reported in the financial statements using the blended presentation method as if they were part of the District's operations because the governing board of the component units is essentially the same as the governing board of the District and because their purpose is to operate charter schools authorized by the District.

The District has approved Charters for Diamond Technology Institute, Alianza Charter, Linscott Charter, Watsonville Charter School of Arts, Pacific Coast Charter and Ceiba College Preparatory Academy pursuant to *Education Code* Section 47605. All Charter Schools, except Ceiba, are operated by the District and their financial activities are accounted for in the charter school special revenue fund. Ceiba College Preparatory Academy is not a component unit of the District.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Joint Powers Agencies and Public Entity Risk Pools The District is associated with Schools Association For Excess Risk (SAFER), Protection Insurance Program for Schools (PIPS), Self Insured Schools of California (SISC) for medical and vision insurance, and public entity risk pools Northern California Regional Liability Excess Fund (NorCal ReLiEF) that provides insurance coverage to the District. These organizations do not meet the criteria for inclusion as component units, so they are not component units of the District for financial reporting purposes. The District also participates in the Henry J. Mello Center for the Performing Arts Administration Agency (the JPA), through a joint powers agreement with the City of Watsonville and the District. Each member's board appoints three directors. The JPA was established for the purpose of administering all functions necessary for the operation and maintenance of the Performing Arts Center (the Center). On August 2, 1994, the JPA entered into a management, operation and maintenance agreement with the Pajaro Valley Performing Arts Association (PVPAA), a tax exempt, nonprofit public benefit corporation. The agreement was for a period of ten years and has been reviewed and continued annually, whereby; PVPAA shall operate the Center and perform all services reasonably required in connection with the management and operation of the Center. PVPAA shall pay costs and operating expenses of every kind pertaining to the Center's operation.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Building Fund The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Charter Schools Fund This fund may be used by authorizing Districts to account separately for the activities of District-operated charter schools that would otherwise be reported in the authorizing District's General Fund.

Adult Education Fund The Adult Education Fund is used to account separately for federal, State, and local resources committed for adult education programs and is to be expended for adult education purposes only.

Child Development Fund The Child Development Fund is used to account separately for federal, State, and local revenues to operate child development programs and is to be used only for expenditures for the operation of child development programs.

Cafeteria Fund The Cafeteria Fund is used to account separately for federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

Deferred Maintenance Fund The Deferred Maintenance Fund is used to account separately for revenues that are restricted or committed for deferred maintenance purposes (*Education Code* Section 17582).

Debt Service Funds The Debt Service funds are used to account for the accumulation of restricted, committed, or assigned resources for and the payment of principal and interest on general long-term obligations.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a District (*Education Code* Sections 15125-15262).

Capital Project Funds The Capital Project Funds are used to account for financial resources that are restricted, committed, or assigned to the acquisition or construction of capital facilities and other major capital assets (other than those financed by proprietary funds and trust funds).

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (Education Code Sections 17620-17626). Expenditures are restricted to the purposes specified in Government Code Sections 65970-65981 or to the items specified in agreements with the developer (Government Code Section 66006).

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Proprietary Funds Proprietary Funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the local education agency, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service. The District has only one internal service fund which is the Self-Insurance fund.

Self-Insurance Fund Self-Insurance Fund may be used to account for any activity for which goods or services are provided to other funds of the District in return for a fee to cover the cost of operations. The District operates workers' compensations and dental programs that are accounted for in the Self-Insurance fund.

Fiduciary Funds Fiduciary Funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Trust funds are used to account for the assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore, not available to support the District's own programs. The District's trust funds are Retiree Benefits Trust and Private Purpose Scholarship Trust. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, and program revenues for each governmental function and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net position use is either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities results from special revenue funds and the restrictions on their net position use.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Governmental Funds All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Proprietary Funds Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 60 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Unearned Revenue Unearned revenue arises when resources are received by the District prior to the incurrence of qualifying expenditures or expenses. In subsequent periods, when revenue recognition criteria is met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet/net position and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unavailable revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the government-wide statements.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2018, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in County and State investment pools are determined by the pools.

Prepaid Items

Prepaid items represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures/expenses over the benefiting period.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental type funds and expenses in the proprietary type funds when used.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$25,000 with the exception to federally funded equipment and Food Services Program which has a threshold of \$2,000 with a useful life of five years or more. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements, 5 to 50 years; equipment, 2 to 15 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental column of the statement of net position.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified and certificated school members who retire after January 1, 1999. At retirement, each member will receive service credit for each day of unused sick leave per STRS and PERS regulations.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

Debt Issuance Costs, Premiums and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term debt obligations and other long-term obligations are reported as liabilities in the applicable governmental activities, or proprietary fund statement of net position. Debt premiums and discounts, as well as issuance costs, related to prepaid insurance costs are amortized over the life of the bonds using the effective interest method.

In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount and premium of the debt is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for the unamortized amount on the refunding of general obligation bonds, for pension related items, and for OPEB related items.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for deferred charges on refunding, for pension related items, and for OPEB related items.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Fund Balances - Governmental Funds

As of June 30, 2018, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board, and chief business officer may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

In fiscal year 2010-2011, the governing board adopted a minimum fund balance policy for the General Fund in order to protect the District against revenue shortfalls or unpredicted on-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than 3 percent of General Fund expenditures and other financing uses. In 2016-2017, the governing board approved an additional 3% or \$6.8 million.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Stabilization Arrangement

In fiscal year 2010-2011, the governing board adopted a resolution for stabilization arrangements. Under the resolution, a portion of the fund balance of the General Fund is committed for stabilization arrangements, such as might be needed in emergency situations or when revenue shortages or budgetary imbalances occur. The resolution states that, at fiscal year end, an amount approximately equal to, but not less than, ten percent of the annual operating expenditures of the General Fund is to be committed for use in covering catastrophic losses, including natural and man-made disasters, insurance loss reserves, and limited operating expenses in a period of severe economic uncertainty. At June 30, 2018, \$21,756,529 of the fund balance for the General Fund was reported as committed for economic stabilization. The resolution recognizes that under extreme conditions, the use of resources may result in the committed fund balance amount dropping below the established threshold. Such amounts are required to be reinstated by the end of the subsequent fiscal year.

Net Position

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are interfund insurance premiums. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the fund.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental columns of the statement of activities.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The Counties of Santa Cruz and Monterey bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

New Accounting Pronouncements Effective This Fiscal Year

GASB Statement No. 75 – In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. The objective of the Statement is to replace the requirements of GASB Statement No. 45. In addition, the Statement requires governments to report a liability on the face of the financial statements for the OPEB provided and requires governments to present more extensive note disclosures and required supplementary information about their OPEB liabilities.

GASB Statement No. 85 – In March 2017, GASB issued Statement No. 85, *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits).

GASB Statement No. 86 – In May 2017, GASB issued Statement No. 86, Certain Debt Extinguishment Issues. The primary objective of this Statement is to improve consistency in accounting and financial reporting for insubstance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

New Accounting Pronouncements Effective in the Future Fiscal Year

GASB Statement No. 83 – In November 2016, GASB issued Statement No. 83, Certain Asset Retirement Obligations. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital asset should recognize a liability based on the guidance in this Statement. This Statement also requires disclosure of information about the nature of a government's ARO, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018, or the 2018-2019 fiscal year. The District has not determined the effect of the statement.

GASB Statement No. 84 – In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018, or the 2019-2020 fiscal year. The District has not determined the effect of the statement

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

GASB Statement No. 87 – In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The Statement is effective for the reporting periods beginning after December 15, 2019, or 2020-2021 fiscal year. The District has not determined the effect of the statement.

GASB Statement No 88 – In April 2018, GASB issued Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. The District has not determined the effect of the statement.

GASB Statement No 89 – In June 2018, GASB issued Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The District has not determined the effect of the statement.

GASB Statement No. 90 – In August 2018, GASB issued Statement No. 90, *Majority Equity Interest, an amendment of GASB statement No. 14 and No. 61*. The objectives of this Statement is to improve how majority equity interest is reported. The Statement specifies that a majority equity interest in a legally separate organization should be reported as an investment using the equity method if a government's holding of the equity interest meets the definition of an investment and for all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018 or FY 2019/2020. The District is evaluating the impact of this Statement on the financial statements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 2 - DEPOSITS AND INVESTMENTS

Summary of Deposits and Investments

Deposits and investments as of June 30, 2018, are classified in the accompanying financial statements as follows:

Governmental funds	\$ 147,396,189
Proprietary fund	5,219,767
Fiduciary funds	 10,023,566
Total Deposits and Investments	\$ 162,639,522
Deposits and investments as of June 30, 2018, consist of the following:	
Cash on hand and in banks	\$ 764,919
Cash in revolving	150,000
Investments	 161,724,603
Total Deposits and Investments	\$ 162,639,522

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

General Authorizations

Limitations as they relate to interest rate risk and concentration of credit risk are indicated in the schedules below:

Authorized	Maximum Remaining	Maximum Percentage	Maximum Investment
Investment Type	Maturity	of Portfolio	in One Issuer
Local Agency Bonds, Notes, Warrants	5 years	None	None
Registered State Bonds, Notes, Warrants	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
Banker's Acceptance	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates of Deposit	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20% of base	None
Medium-Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-Through Securities	5 years	20%	None
County Pooled Investment Funds	N/A	None	None
Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Pooled investments, such as the county pool and mutual funds were not rated on June 30, 2018.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Pool.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

	Fair	Maturity
Investment Type	Value	in Years
Mutual Funds	\$ 2,977,043	N/A
County Pool	158,747,560	0.53
Total	\$ 161,724,603	

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2018, the District's bank balance of \$367,395 was exposed to custodial credit risk because it was uninsured but collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

NOTE 3 - FAIR VALUE MEASUREMENTS

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.
- Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.
- Level 3 Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Uncategorized - Investments in the Santa Cruz County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The District's fair value measurements are as follows at June 30, 2018:

		Fair Value						
		Measurements						
I	Investment Type	Fair Value			Level 1	Ţ	Incategorized	
Mutual Funds	_	\$	2,977,043	\$	2,977,043	\$	-	
County Pool			158,747,560		_		158,747,560	
	Total	\$	161,724,603	\$	2,977,043	\$	158,747,560	

All assets have been valued using a market approach, with quoted market prices.

NOTE 4 - RECEIVABLES

Receivables at June 30, 2018, consisted of intergovernmental grants, entitlements, interest and other local sources. All receivables are considered collectible in full.

	General Fund	Non-Major Governmental Funds	Total	Fiduciary Funds

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 7 - DEFERRED CHARGE ON REFUNDING

Deferred charge on refunding is a consumption of net position by the District that is applicable to a future reporting period. The \$1,407,002 balance of the deferred outflows of resources at June 30, 2018 will be recognized as an expense and as a decrease in net position over the remaining life of related bonds.

The change in the District's deferred charge on refunding is as follows:

	Balance		Α	ccretion/					Balance	
	June 30, 2017		Additions			De	eductions	June 30, 2018		
Deferred charges on refunding	\$	1,688,402	\$		-	\$	281,400	\$	1,407,002	

NOTE 8 - ACCOUNTS PAYABLE

Accounts payable at June 30, 2018, consisted of the following:

	Non-Major										
		General	Building	Governmental	Government al	Proprietary	Fiduciary				
		Fund	Fund	Funds	Total	Fund	Funds

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - LONG-TERM OBLIGATIONS

Summary

The changes in the District's long-term obligations during the year consisted of the following:

	Balance	Accretion/		Balance	Due in
	June 30, 2017	Additions	Deductions	June 30, 2018	One Year
General obligation bonds	\$ 164,830,687	\$ 33,531,696	\$ 5,145,000	\$ 193,217,383	\$ 5,555,000
Bond premium	9,182,751	3,397,292	406,967	12,173,076	406,966
Accumulated vacation - net	1,938,175	-	349,626	1,588,549	-
Capital leases	1,042,215	-	596,692	445,523	445,523
Supplemental employees					
retirement benefits	83,106	-	27,702	55,404	27,702
Total	\$ 177,076,934	\$ 36,928,988	\$ 6,525,987	\$ 207,479,935	\$ 6,435,191

Payments on the general obligation bonds are made by the Bond Interest and Redemption Fund with local revenues. Regularly scheduled principal payments on the capital leases are paid by the General Fund. Accumulated vacation, supplemental employee retirement benefits, and net pension liability are paid by the funds for which the employees worked.

Bonded Debt

The outstanding general obligation bonded debt is as follows:

				Bonds			Bonds

NOTE 12 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Plan Administration

Pajaro Valley Unified School District administers the Postemployment Benefits Plan (the "Plan") — a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for the District. Management of the Plan is vested in the District's Governing Board, which consists of seven locally elected plan members. At June 30, 2018, Plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefit payments	160
Active plan members	2,045
Total Plan Members	2,205

Benefits provided. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses until age 65. Benefits are provided through a third-party insurer, and the full cost of benefits is covered by the plan except for the co-share amount of \$56 to \$90. The District's Governing Board has the authority to establish and amend the benefit terms as contained within the negotiated labor agreements.

Contributions. The contribution requirements of plan members and the District are established and may be amended by the District and the Teachers Association (PVFT), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements between the District, PVFT, CSEA, and the unrepresented groups. For fiscal year 2017-2018, the District contributed \$3,479,150 to the plan, all of which was used for current premiums (approximately 100 percent of total premiums). Plan members are not required to contribute to the plan. The remainder of the premiums were funded from beginning net position and interest earnings.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Investments

Investment policy. The Plan's policy in regard to the allocation of invested assets is established and may be amended by the Pajaro Valley Unified School District Governing Board by a majority vote of its members. It is the policy of the Governing Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The Plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2018:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
US Large Cap	40%	7.795%
US Small Cap	20%	7.795%
Long-Term Corporate Bonds	30%	5.295%
Short-Term Gov't Fixed	10%	3.250%
Total	100%	6.591%

Rate of return. For the year ended June 30, 2018, the annual money-weighted rate of return on investments, net of investment expense, was 2.65 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB of the District

The component of the net OPEB liability of the District at June 30, 2018, were as follows:

Total OPEB liability	\$ 79,921,315
Plan fiduciary net position	 2,977,044
District's net OPEB liability	\$ 76,944,271
Plan fiduciary net position as a percentage of the total OPEB liability	3.72%

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Measurement Date	June 30, 2018
Actuarial valuation date	June 30, 2017
Discount rate	3.80 percent
Inflation	2.75 percent
Salary increases	2.75 percent, average, including inflation
Healthcare cost trend rates	4 percent

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Mortality rates were based on the 2009 CalSTRS Mortality, 2009 CalPERS Mortality for Retired Miscellaneous Employees, and the 2009 CalPERS Mortality for Active Miscellaneous Employees for Males or Females, as appropriate, with adjustments for mortality improvements based on CalPERS analysis.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the 2009 CalSTRS Retirement Rates, 2009 CalPERS 2.0% at 60 Rates for Miscellaneous Employees, and the 2009 CalPERS Retirement Rates for School Employees.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2018.

Discount rate. The discount rate used to measure the total OPEB liability was 3.8 percent. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members through 2019. Therefore, the long-term expected rate of return on OPEB plan investments and the 20 year municipal bond index was applied to the applicable periods of projected benefit payments to determine the total OPEB liability.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Changes in the Net OPEB Liability

	Increase (Decrease)				
	Total OPEB	al OPEB Plan Fiduciary Net C			
	Liability	Net Position	Liability

Net change in total OPEB liability	5,074,300	141,860	4,932,440		
Balance at June 30, 2018	\$ 79,921,315	\$ 2,977,044	\$ 76,944,271		

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.8 percent) or 1-percentage-point higher (4.8 percent) than the current discount rate:

	1% Decrease		Discount Rate		1	% Increase
		2.8%		3.8%		4.8%
Net OPEB liability	\$	82,540,721	\$	76,944,271	\$	71,701,228

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (4 percent decreasing to 3 percent) or 1-percentage-point higher (4 percent increasing to 5 percent) than the current healthcare cost trend rates:

		Healthcare Cost	
	1% Decrease	Trend Rates	1% Increase
	3%	4%	5%
Net OPEB liability	\$ 71,612,809	\$ 76,944,271	\$ 82,429,164

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPEB

For the year ended June 30, 2018, the District recognized OPEB expense of \$2,725,066. At June 30, 2018, the District reported deferred outflows of resources for OPEB contributions subsequent to measurement date of \$3,479,150 which will be recognized to OPEB expense in fiscal year 2019.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 13 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year ending June 30, 2018, the District contracted with Schools Association For Excess Risk for property and liability insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

Coverage provided by the Schools Association for Excess Risk for Property and Liability and the Pajaro Valley Unified School District Workers' Compensation Self-Insurance Program except for claims occurring on or after 7/1/12. These claims are covered through the Public Insurance Programs for Schools are as follows:

Insurance Program / Company Name	Type of Coverage	 Limits
Public Insurance Program for Schools	Workers' Compensation	\$ 1,000,000
	(Incidents after 7/1/12)	
Schools Association For Excess Risk	Property	250,250,000
Schools Association For Excess Risk	Liability	10,000,000
Schools Association For Excess Risk	Excess Liability	25,000,000

Claims Liabilities

The District records an estimated liability for workers' compensation claims filed prior to the termination of the self-insured program and dental. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and an estimate for claims incurred, but not reported based on historical experience.

Unpaid Claims Liabilities

The fund establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represent the changes in approximate aggregate liabilities for the District from July 1, 2016 to June 30, 2018:

Liability Balance, July 1, 2016	\$ 7,031,622
Claims and changes in estimates	1,876,746
Claims payments	 (2,610,287)
Liability Balance, June 30, 2017	 6,298,081
Claims and changes in estimates	925,075
Claims payments	 (2,994,948)
Current portion of Claim liabilities	(399,000)
Liability Balance, June 30, 2018	\$ 3,829,208
Assets available to pay claims at June 30, 2018	\$ 6,551,417

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 14 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2018, the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

		Net	Defe	erred Outflows	Def	ferred Inflows		
Pension Plan	Per	nsion Liability	0	f Resources	0	f Resources	Per	sion Expense
CalSTRS	\$	163,703,335	\$	52,540,696	\$	17,398,491	\$	16,768,312
CalPERS		64,834,201		20,691,151		2,491,233		10,958,692
Total	\$	228,537,536	\$	73,231,847	\$	19,889,724	\$	27,727,004

The details of each plan are as follows:

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers' Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: http://www.calstrs.com/member-publications.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2018, are summarized as follows:

	STRP Defined Benefit Program		
	On or before	On or after	
Hire date	December 31, 2012	January 1, 2013	
Benefit formula	2% at 60	2% at 62	
Benefit vesting schedule	5 years of service	5 years of service	
Benefit payments	Monthly for life	Monthly for life	
Retirement age	60	62	
Monthly benefits as a percentage of eligible compensation	2.0% - 2.4%	2.0% - 2.4%	
Required employee contribution rate	10.25%	9.205%	
Required employer contribution rate	14.43%	14.43%	
Required state contribution rate	9.328%	9.328%	

Contributions

Required member, District and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven year period. The contribution rates for each plan for the year ended June 30, 2018, are presented above and the District's total contributions were \$13,710,169.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

Total net pension liability, including State share:

District's proportionate share of net pension liability	\$ 163,703,335
State's proportionate share of the net pension liability associated with the District	96,845,510
Total	\$ 260,548,845

The net pension liability was measured as of June 30, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2017 and June 30, 2016, respectively was 0.1770 percent and 0.1650 percent, resulting in a net increase in the proportionate share of 0.0121 percent.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

For the year ended June 30, 2018, the District recognized pension expense of \$16,768,312. In addition, the District recognized pension expense and revenue of \$9,748,431 for support provided by the State. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources		
Pension contributions subsequent to measurement date	\$	13,710,169	\$	-		
Net change in proportionate share of net pension liability		7,897,181		(10,183,513)		
Change in assumption		30,327,955		-		
Difference between projected and actual earnings on pension plan investments		-		(4,359,876)		
Differences between expected and actual experience in the measurement of the total pension liability		605,391		(2,855,102)		
Total	\$	52,540,696	\$	(17,398,491)		

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflow of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended	Deferred Outflows
June 30,	(Inflows) of Resources
2019	\$ (3,625,084)
2020	2,743,025
2021	395,587
2022	(3,873,404)
Total	\$ (4,359,876)

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

The deferred (inflows) of resources related to the net change in proportionate share of net pension liability and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 7 years and will be recognized in pension expense as follows:

Year Ended	Deferred (Inflows)
June 30,	Outflows of Resources
2019	\$ 9,200,908
2020	9,200,908
2021	8,155,115
2022	(1,257,007)
2023	(925,104)
2024	1,417,092_
Total	\$ 25,791,912

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total pension liability to June 30, 2017. The financial reporting actuarial valuation as of June 30, 2016, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2016
Measurement date	June 30, 2017
Experience study	July 1, 2010 through June 30, 2015
Actuarial cost method	Entry age normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant. (Pension Consulting Alliance PCA) as an input to the process.

The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2017, are summarized in the following table:

		Long-Term
	Assumed Asset	Expected Real
Asset Class	Allocation	Rate of Return
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute Return/Risk Mitigating Strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	Net Pension
Discount Rate	 Liability
1% decrease (6.10%)	\$ 240,368,467
Current discount rate (7.10%)	\$ 163,703,335
1% increase (8.10%)	\$ 101,484,385

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

California Public Employees' Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016 annual actuarial valuation report, and Schools Pool Actuarial Valuation. These reports and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: https://www.calpers.ca.gov/page/forms-publications.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2018, are summarized as follows:

	School Employer	Pool (CalPERS)
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	Monthly for life	Monthly for life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.00%	6.50%
Required employer contribution rate	15.531%	15.531%

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2018, are presented above and the total District contributions were \$6,620,429.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2018, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$64,834,201. The net pension liability was measured as of June 30, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June, 30 2017 and June 30, 2016, respectively was 0.2716 percent and 0.2741 percent, resulting in a net decrease in proportionate share of 0.0025 percent.

For the year ended June 30, 2018, the District recognized pension expense of \$10,958,692. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	erred Outflows f Resources	ferred Inflows f Resources
Pension contributions subsequent to measurment date	\$ 6,620,429	\$ -
Differences between projected and actual earnings on		
plan investments	2,242,819	-
Change in assumption	9,470,055	(763,343)
Differences between expected and actual experience	2,322,743	-
Change in proportions	 35,105	 (1,727,890)
Total	\$ 20,691,151	\$ (2,491,233)

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows of resources related to the difference between projected and actual earnings on pension plan investments are amortized over a closed five-year period and will be recognized in pension expense as follows:

	Deferred
Year Ended	Outflows/(Inflows)
June 30,	of Resources
2019	\$ (60,773)
2020	2,587,727
2021	944,032
2022	(1,228,167)
Total	\$ 2,242,819

The deferred (inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.9 years and will be recognized in pension expense as follows:

		Deferred
Year Ended	Outfl	ows/(Inflows)
June 30,	of	Resources
2019	\$	3,045,620
2020		3,110,807
2021		3,180,243
Total	\$	9,336,670

Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total pension liability to June 30, 2017. The financial reporting actuarial valuation as of June 30, 2016, used the following methods and assumptions, applied to all prior periods included in the measurement:

June 30, 2016
June 30, 2017
July 1, 1997 through June 30, 2011
Entry age normal
7.15%
7.15%
2.75%
Varies by entry age and service

The mortality table used was developed based on CalPERS-specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expense The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
	Assumed Asset	Expected Real
Asset Class	Allocation	Rate of Return
Global equity	47%	5.38%
Global debt securities	19%	2.27%
Inflation assets	6%	1.39%
Private equity	12%	6.63%
Real estate	11%	5.21%
Infrastructure and forestland	3%	5.36%
Liquidity	2%	-0.90%

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

	N	let Pension
Discount rate		Liability
1% decrease (6.15%)	\$	80,028,123
Current discount rate (7.15%)	\$	64,834,201
1% increase (8.15%)	\$	31,662,941

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Accumulated Program for Part-Time and Limited Services Employees (APPLE)

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use the APPLE Retirement Program as its alternative plan. Contributions made by the District and an employee vest immediately. The District contributes 1.3 percent of an employee's gross earnings. An employee is required to contribute 6.2 percent of his or her gross earnings to the pension plan.

On Behalf Payments

The State of California makes contributions to CalSTRS and CalPERS on behalf of the District. These payments consist of State General Fund contributions to STRS in the amount of \$7,875,606, \$8,821,244, and \$5,980,867, respectively, for 2018, 2017 and 2016 (9.3328, 8.828, and 7.410 percent of annual payroll for 2018, 2017, and 2016, respectively). Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures, however, guidance received from the California Department of Education advises local educational agencies not to record these amounts in the Annual Financial and Budget Report. These amounts have been recorded in the financial statements.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

Construction Commitments

As of June 30, 2018 the District had the following construction commitments:

	C	onstruction	Date of
Capital Project	C	ommitment	Completion

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2018.

Litigation

The District is involved in various litigations arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2018.

NOTE 16 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS, JOINT POWER AUTHORITIES AND OTHER RELATED PARTY TRANSACTIONS

The District is a member of Self Insured Schools of California (SISC), Northern California Regional Liability Excess Fund (NorCal ReLiEF), and Public Insurance Program for Schools (PIPS) public entity risk pools (JPAs). The District pays an annual premium to the applicable entity for its property and liability coverage, excess workers' compensation and excess medical insurance. The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

The JPA has a budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. During the year ended June 30, 2018, the District made payments of \$4,150,493 to PIPS for workers' compensation insurance, \$1,017,380 to NorCal ReliEF for excess property and liability insurance, and \$56,323,145 to SISC for medical and vision insurance.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 17 - LOAN RECEIVABLE

In May 8, 2013, the District entered into a Release and Settlement agreement with Ceiba College Preparatory Academy (the Charter). The agreement includes a \$2 million renovation loan to the Charter school. The loan bears interest at 0.84%. The loan amount will be recovered over ten years, beginning July 1, 2014 and ending June 30, 2024. Quarterly payments of \$52,722 are due the first day of each quarter, commencing December 1, 2014.

The loan matures through 2025 as follows:

	Interest to					
Fiscal Year		Principal	Maturity		Total

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2018

NOTE 1 - PURPOSE OF SCHEDULES

Budgetary Comparison Schedule

This schedule presents information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations.

Schedule of Changes in the District's Net OPEB Liability and Related Ratios

This schedule presents information on the District's changes in the net OPEB liability, including beginning and ending balances, the plan's fiduciary net position, and the net OPEB liability. In the future, as data becomes available, ten years of information will be presented.

Change in benefit terms – The District did not make changes in benefit terms in the Fiscal Year 2017-2018.

Change in assumptions – The District's discount rate of 3.6% in 2017 changed to 3.8% in 2018. In 2017 the usage of historic 30 year rates of return for each asset class was applied. In 2018 the usage of historic 21 year real rates of return resulting in an offset of 115 basis points instead of 27 basis points.

Schedule of District Contributions for OPEB

This schedule presents information on the District's actuarially determined contribution, contributions in relation to the actuarially determined contribution, and any excess or deficiency related to the actuarially determined contribution. In the future, as data becomes available, ten years of information will be presented.

Schedule of Investment Returns

This schedule presents information on the annual money weighted rate of return on OPEB plan investments. In future years, as data becomes available, ten years of information will be presented.

Schedule of the District's Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

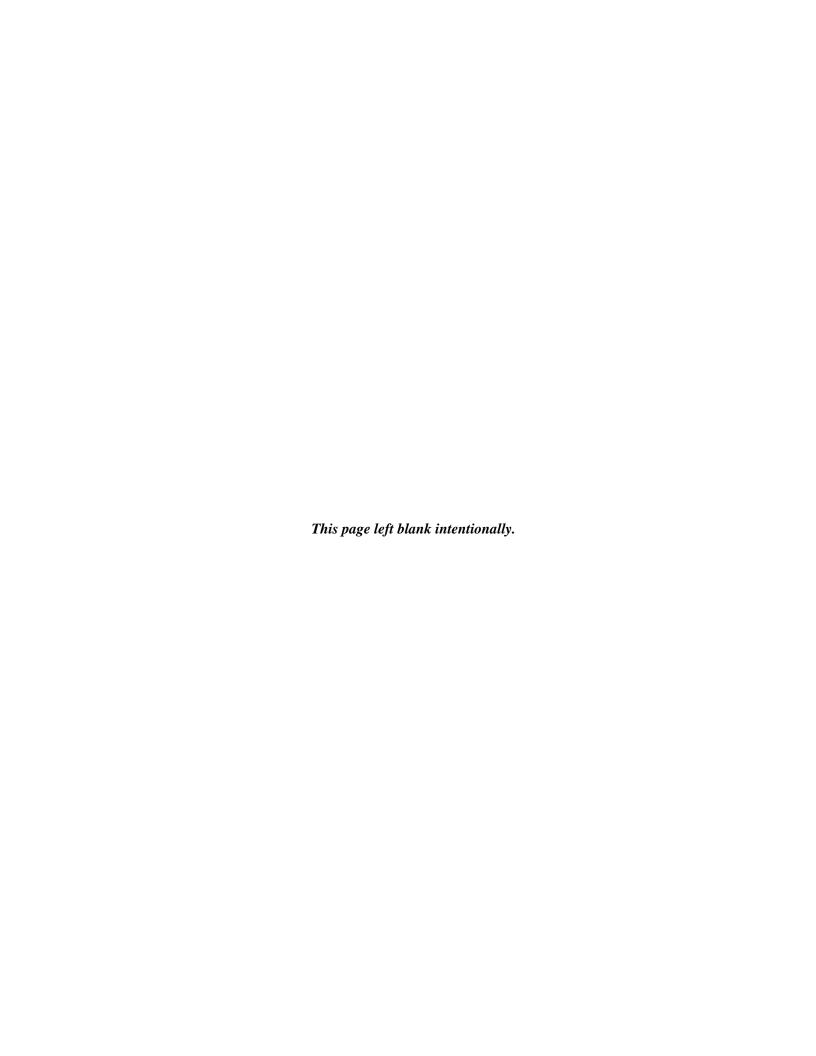

Changes in Benefit Terms – There were no changes in benefit terms since the previous valuations for both CalSTRS and CalPERS.

Changes in Assumptions – The CalSTRS plan rate of investment return assumption was changed from 7.60 percent to 7.10 percent since the previous valuation. The CalPERS plan rate of investment return assumption was changed from 7.65 percent to 7.15 percent since the previous valuation.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2018

Schedule of District Pension Contributions

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

ATTENDANCE AT P-2	17,314	17,262	17,370	17,403

The General Fund balance has decreased by \$19,227,887 over the past two years. The fiscal year 2018-2019 budget projects a decrease of \$9,325,161. For a district this size, the State recommends available reserves of at least 3 percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred an operating deficit during the fiscal year 2017-2018 and anticipates incurring an operating surplus during the 2018-2019 fiscal year. Total long-term obligations have increased by \$121,792,853 over the past two years.

Average daily attendance has decreased by 141 over the past two years. An increase of 52 ADA is anticipated during fiscal year 2018-2019.

Budget 2019 is included for analytical purposes only and has not been subjected to audit.

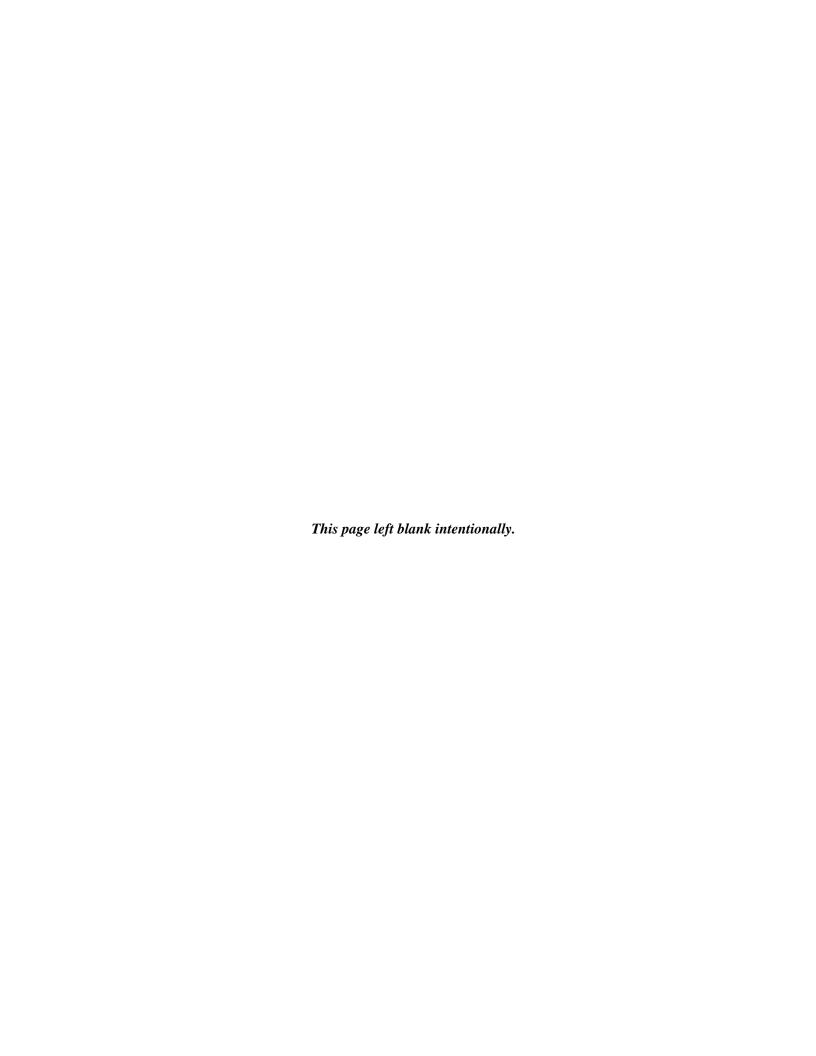

² Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2018

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The District has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures and Changes in Fund Balances and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts represent Federal funds that had been recorded as revenues in the fiscal year ended June 30, 2017 then spent during the fiscal year ended June 30, 2018. The unspent balances are reported as legally restricted ending fund balances within the General Fund.

	CFDA	
_	Number	Amount
Description		
Total Federal Revenues per Statement of Revenues, Expenditures		
and Changes in Fund Balances:		\$ 39,840,512
Add: Fair Market Value of Commodities not recorded in the		
financial		
statements	10,555	552,340
Total Schedule of Expenditures of Federal Awards		\$ 40,392,852

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries, schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-1987 requirement, as required by *Education Code* Section 46201.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2018

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Schedule of Charter Schools

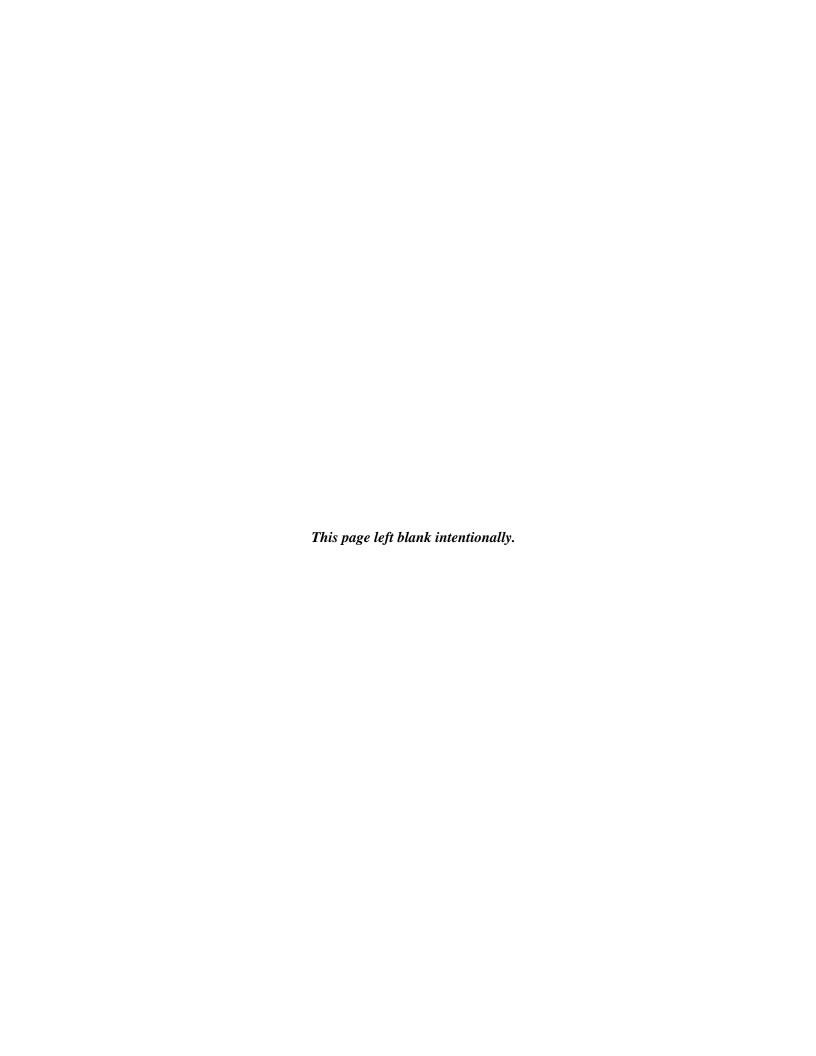

This schedule lists all Charter Schools chartered by the School District, and displays information for each Charter School on whether or not the Charter School is included in the School District audit.

Charter School Statement of Changes in Fund Balances

The charter school schedule of changes in fund balances provides information about the changes in fund balance in each of the five charter schools operated by the District.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

INDEPENDENT AUDITOR'S REPORTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Governing Board Pajaro Valley Unified School District Watsonville, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pajaro Valley Unified School District (District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 15, 2018. Our report included an emphasis-of-matter regarding the District's adoption of new accounting guidance, GASB Statement No. 75, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 15, 2018

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Governing Board Pajaro Valley Unified School District Watsonville, California

Report on Compliance for Each Major Federal Program

We have audited Pajaro Valley Unified School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Pajaro Valley Unified School District's (District) major Federal programs for the year ended June 30, 2018. The District's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Governing Board Pajaro Valley Unified School District Watsonville, California

Report on State Compliance

We have audited Pajaro Valley Unified School District's (District) compliance with the types of compliance requirements as identified in the 2017-2018 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting that could have a direct and material effect on each of the District's State government programs as noted below for the year ended June 30, 2018.

Management's Responsibility

Management is responsible for compliance with the requirements of State laws, regulations, and the terms and conditions of its State awards applicable to its State programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of each of the District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the 2017-2018 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of the District's compliance with those requirements.

Unmodified Opinion

In our opinion, Pajaro Valley Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2018.

In connection with the audit referred to above, we selected and tested transactions and records to determine the Pajaro Valley Unified School District's compliance with the State laws and regulations applicable to the following items:

	Procedures Performed
LOCAL EDUCATION AGENCIES OTHER THAN CHARTER SCHOOLS	
Attendance	Yes
Teacher Certification and Misassignments	Yes
Kindergarten Continuance	Yes
Independent Study	Yes
Continuation Education	Yes
Instructional Time	Yes
Instructional Materials	Yes
Ratios of Administrative Employees to Teachers	Yes
Classroom Teacher Salaries	Yes
Early Retirement Incentive	No, see below
Gann Limit Calculation	Yes
School Accountability Report Card	Yes
Juvenile Court Schools	No, see below
Middle or Early College High Schools	No, see below
K-3 Grade Span Adjustment	Yes
Transportation Maintenance of Effort	Yes
Apprenticeship: Related and Supplemental Instruction	No, see below
SCHOOL DISTRICTS, COUNTY OFFICES OF EDUCATION, AND CHARTER SCHOOLS	
Educator Effectiveness	Yes
California Clean Energy Jobs Act	Yes
After School Education and Safety Program:	
General Requirements	Yes
After School	Yes
Before School	No, see below
Proper Expenditure of Education Protection Account Funds	Yes
Unduplicated Local Control Funding Formula Pupil Counts	Yes
Local Control Accountability Plan	Yes
Independent Study - Course Based	Yes
CHARTER SCHOOLS	
Attendance	Yes
Mode of Instruction	Yes
Non Classroom-Based Instruction/Independent Study for Charter Schools	Yes
Determination of Funding for Non Classroom-Based Instruction	Yes
Annual Instruction Minutes Classroom-Based	Yes
Charter School Facility Grant Program	No, see below

The District did not offer an Early Retirement Incentive Program during the current year; therefore, we did not perform procedures related to the Early Retirement Incentive Program.

The District does not have any Juvenile Court Schools; therefore, we did not perform any procedures related to Juvenile Court Schools.

The District does not have any Middle or Early College High Schools; therefore, we did not perform any procedures related to Middle or Early College High Schools.

The District does not offer a Before School Education and Safety Program; therefore, we did not perform any procedures related to the Before School Education and Safety Program.

The District does not offer an Apprenticeship Program; therefore, we did not perform any procedures for the Apprenticeship Program.

The District does not have a Charter School Facility Grant Program; therefore, we did not perform any procedures for Charter School Facility Grant Program.

2017-001 Code: 40000 Unduplicated Local Control Funding Formula Pupil Counts

Criteria or Specific Requirements

Supplemental and concentration grant amounts are calculated based on the percentage of "unduplicated pupils" enrolled in the District on census day (first Wednesday in October). The percentage equals:

Unduplicated count of pupils who (1) are English learners, (2) meet income or categorical eligibility requirements for free or reduced-price meals under the National School Lunch Program, or (3) are foster youth. Divided by total enrollment in the LEA (EC sections 2574(b)(1) and 42238.02(b)(5)).

"Unduplicated count" means that each pupil is counted only once even if the pupil meets more than one of these criteria (EC sections 2574(b) (2) and 42238.02(b)(1)). Data submitted by LEAs to CALPADS is used as the starting point for calculating the unduplicated student count. CALPADS Certification Report 1.17 – FRPM/English Learner/Foster Youth – Count, displays the counts of students by category and an unduplicated total.

In order to be counted in Report 1.17, a student must have an open primary or short-term enrollment in CALPADS over census day and meet one or more of the following criteria:

- Have a program record with an education program code of Homeless (191), Migrant (135), Free Meal Program (181), or Reduced-Price Meal Program (182), that is open over census day.
- Have an English Language Acquisition Status (ELAS) of "English learner" (EL) that is effective over census day.
- Be directly certified in July through November as being eligible for free meals based on a statewide match conducted by CALPADS.
- Be identified as a foster youth based on a statewide match conducted by CALPADS.
- Be identified as a foster youth through a local data matching process and submitted to and validated by CALPADS.

Condition

Our audit procedures identified that the District omitted 872 pupils who meet the criteria above were not included in the count.

After the errors were noted we selected additional 71 samples from the omitted 872 qualified pupils, and no exceptions were noted.

Questioned Costs

There are no questioned costs.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2018

Context

The above condition pertains to the testing of 2016-17 Unduplicated pupil counts.

Effect

As a result of the errors, the unduplicated pupils' count for the past three years was revised to 43,133 from previous 42,260.

Incorrect reporting can result in a calculation error in LCFF funding. The District underreported the total CalPADS Unduplicated pupil counts by 872.

The audited total (B-4) is 43,132. This number includes the original 42,260 pupils, 1 district funded county program student (B-2), and 871 omitted pupils as the audit adjustment (B-3).

Cause

The underreported counts is because the District inadvertently failed to collect the Alternative Income Forms (Forms) from Community Eligibility Program School (CEP) in the current year, resulting the CEP's unduplicated pupil count was omitted.

Recommendation

Periodic review and reconciliation of the District's data and CALPADS data should be performed to ensure the integrity of data.

Status

Implemented.
