

Need your new personal cell phone to be configured to access PVUSD Email, Calendar and Contacts?

Please Read...

PVUSD Technology Services is not permitted to work on personal technology, such as your iPhone, Droid or other cellular and/or SmartPhone. HOWEVER, your service provider (Sprint, ATT, Verizon, etc.) CAN help you configure your device to access district resources. All they need is the below information:

- Type of Email Server: Exchange
- Email Server: mail.pvUSD.net
- Domain: PVUSD
- Email Address: first_last@pvUSD.net
- Password: User Provided

We apologize for not being able to support everyone with their personal technology but with limited resources we can only support district-owned technology tools. If you need to discuss this matter further, please contact the Director of Technology Services, Tim Landeck at 786-2333.

Thank you and happy computing!
