2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Cesar E. Chavez Middle School (CCMS), which opened in August 2005, is a neighborhood school that provides students with a safe place to learn, outstanding teachers, and a rigorous academic environment. 99 percent of our student live within a 2 mile radius of the school, and as a result, are able to walk to school. Most importantly, graduating students leave CCMS ready to complete grade-level and higher-level academic work in high school and beyond.

Here is our Mission/Vision Statement:

Our school is a safe, secure and welcoming environment that provides a collaborative and rigorous academic setting. Our school provides opportunities for students and staff to innovate, take risks, and learn from success, failure, effort, and feedback..

Our school understands the importance of character and how the development of character can help shape students and staff to live a more successful and fulfilling life.

Our goal is for all our students to be prepared for high school.

Academically, all students take a full year of math, language arts, PE, science, and social studies. We offer Band, Choir, and Art to our 6th, 7th, and 8th grade students. We offer enrichment activities either in the regular classroom or in the afterschool program. Physical activity and athletics play an important and critical role in our program, and all students have the opportunity to participate in one or more of our many sports activities.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Computers

All students have been provided a Chromebook and if necessary, a hotspot.

Textbooks

We choose our textbooks from lists that have already been approved by state education officials. For a list of some of the textbooks we use at our school, see the Data Almanac that accompanies this report. We have also reported additional facts about our textbooks called for by the Williams legislation of 2004. This online report shows whether we had a textbook for each student in each core course during the 2013-14 school year and whether those textbooks covered the California Content Standards.

Curriculum

For more than six years, panels of scholars have decided what California students should learn and be able to do. Last year, the state of California began a transition to a new set of standards in language arts, math, and science. This transition is known as the Common Core Standards, and they apply to all public schools in the state. The textbooks we use and the tests we give are based on these content standards, and we expect our teachers to be firmly focused on them. Policy experts, researchers, and educators consider our state's standards to be among the most rigorous and challenging in the nation.

You can find the content standards for each subject at each grade level on the Web site of the California Department of Education (CDE).

School Facility Conditions and Planned Improvements

Cesar Chavez Middle School was constructed in the early 1950's. More facts about the condition of our school buildings are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more.

The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the Office of Public School Construction (OPSC) and were brought about by the Williams legislation. You can look at the six-page Facilities Inspection Tool used for the assessment on the Web site of the OPSC. <http://www.dgs.ca.gov/opsc/Programs/deferredmaintenanceprogram/goodrepairsstandards.aspx>

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	17	N/A	28	N/A	47
Mathematics (grades 3-8 and 11)	N/A	8	N/A	17	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents participate in a variety of ways at Cesar Chavez Middle School. Foremost is their involvement in groups such as the School Site Council (SSC), the Migrant Parent group, and the English Language Advisory Committee (ELAC). Our ELAC committee operates under the umbrella of the School Site Council. The School Site Council meets monthly to discuss school issues, how to improve the school, and how to improve student achievement. Parents can also access information regarding their child's progress and school activities by using the CCMS School Loop website. In addition, Back to School Night and Open House are well attended by parents. We also schedule many parent conferences throughout the year to discuss academic and socio-emotional progress of the students. At the end of the year, eighth-grade parents help plan and organize the eighth-grade dance and end-of-year activities. To find out how you can volunteer at our school, please call the school office, (831) 761-7699.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.62	3.68	2.45
Expulsions	0.00	0.02	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2022-23 School Safety Plan

Supervision of students begins every morning at 7:30 A.M. Students remain under adult supervision throughout the day until 6 p.m. The campus is surrounded by sturdy fencing and is monitored by staff and security cameras. Visitors must report to the office and sign in before meeting with anybody on campus. Our campus supervisor walks the halls and provides constant supervision at all times. During passing periods and for short periods of time during breaks and lunch, teachers supervise and monitor student activities. During break time and lunch time, administration and support staff supervise the children. In addition, the computer lab and the gymnasium are open for students. We visit with the students on a quarterly basis and review the school rules and behavior expectations for students. We regularly practice evacuation, earthquake, and fire drills. Our safety plan is reviewed with our staff, and our safety team has been trained in strategies for handling a crisis, turning off water and power, and distributing emergency supplies. The Comprehensive School Safety Plan is reviewed annually at a staff meeting within the first month of school.

2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students

2021-22 Types of Services Funded

CCMS uses money provided by the state and federal government for special purposes to improve the academic skills of its students. Our school site council (SSC) determines how these monies are spent at their monthly meetings and through the writing and confirmation of our School Site Learning Plan. This year, monies are allocated for targeted instructional improvement, programs supporting low-performing students and English Learners. These funds pay for student planners, computer equipment, and various instructional materials. Other state funds pay for teachers who perform extra duties, including opening the library and computer lab during lunch.

Professional Development

Staff training at CCMS focuses on improving the ability for teachers to transition to the Common Core Standards in English and Math and the Next Generation Science Standards and on implementing Learning Goals, Success Criteria, Feedback, Academic Discourse, and Integration of Technology into the core curriculum. To accommodate this, Wednesdays in the 2022-23 school year were given to professional development in these areas. Also, other Wednesdays were designed to give teachers the chance to talk and plan activities that will help the students in their academic life. On Wednesdays students are dismissed at 1:15 p.m. and the entire afternoon is structured to accommodate staff with planning activities. Like other schools, CCMS uses staff training days to learn about areas of instruction and curriculum, such as English language development, mathematics, and writing. In 2021-2022, CCMS focused on Critical Thinking in language arts and math. In order to provide time for collaboration for the language arts and math teachers, seven collaboration days were provided to teachers of language arts and math during the 2019-2020 school year.

The focus of the 2022 - 2023 professional development is on Best Practices for teaching, using the book "Teach Like a Champion 3.0" as the starting point for our development on how to improve as a teacher.

This table displays the number of school days dedicated to staff development and continuous improvement.
