2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Starlight Elementary has two language program models: English Only/Structured English Immersion and a Dual Language program. The Dual Language program is a late-exit k-5 50/50 Spanish/English program model.

Our mission statement is:

Who are we:

We are collaborative, caring, and dedicated educators with great intellectual capacity from various cultural and linguistic backgrounds.

Why we are here:

We create positive learning environments, help students develop self-confidence, and build compassionate and respectful communities. Starlight students become empowered to own their education and act as creative thinkers, problem solvers, and lifelong learners. We build partnerships with families and motivate students to use their skills in order to make a difference in their community and the world.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Computers

All students have been provided a Chromebook and if necessary, a hotspot. Further, all classrooms have document cameras and projectors. Each classroom has an Audio System to support students hearing instruction no matter where they are in the classroom. We took some big steps forward to support student learning using technology. Our primary computer lab has 25 computers, an LCD projector, and an interactive SMARTboard. This space is used primarily for electronic intervention programs, but it is also used for developing PowerPoint presentations and for exploring teacher-selected web sites that support the curriculum. The after school program also uses the lab for Lexia (phonics and more), QuickReads to develop fluency, and UltraKey for keyboarding. Our new web site (www.starlight.pvusd.net) is serving the school community well and will continue to be developed and improved.

Textbooks

We utilized textbooks and materials that are aligned to Common Core standards in both Language Arts and Math.

Curriculum

Bridges to Mathematics has been adopted by the district and is in the second year of implementation.

Benchmark Advance is used for English Language Arts, Benchmark Adelante is used for Spanish Language Arts.

School Facility Conditions and Planned Improvements

The oldest buildings in the Pajaro Valley Unified School District were built in the early 1900's. More facts about the condition of our school buildings are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more. The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the Office of Public School Construction (OPSC) and were brought about by the Williams legislation. You can look at the six-page Facilities Inspection Tool used for the assessment on the Web site of the OPSC. <http://www.dgs.ca.gov/opsc/Programs/deferredmaintenanceprogram/goodrepairsstandards.aspx>

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	21	N/A	28	N/A	47
Mathematics (grades 3-8 and 11)	N/A	19	N/A	17	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parent participation is a highlight of our school culture. Parents are recruited and encouraged to participate in classroom and site functions. One outstanding program is our partnership with Second Harvest Food Bank and our "Nutrition Stars" program. The Nutrition Stars focuses on supporting actions to help us reach our school-wide goal #3 - to reduce Body Mass Index (BMI) rates (overweight and obese) and improve nutrition and physical fitness programs. Parent leaders go through nutrition training/classes and in turn participate in evening presentations on nutrition. At these biweekly "Nutrition Nights" meetings, parents learn from community leaders and peer parents. At the end of each meeting, parents receive produce and vegetables to take home.

Parents also play a key role in our academic programs. Common Core implementation is a key focus this year. Parents are provided learning opportunities through meetings in a virtual setting due to COVID-19 as well as in-person opportunities. A big part of this effort is giving parents the knowledge and information they need so they can help their students with homework and other classroom assignments. They are advised of programs and curriculum at all grade levels. Parents are encouraged to give input to all aspects of curriculum and programming. We have a highly successful prekindergarten literacy and mathematics program, and we work closely with our pre-Kindergarten program to ensure alignment with program and curriculum.

Parents are the key drivers of the direction the school takes. Our School Site Council (SSC) and English Language Advisory Committee (ELAC) both serve as governing boards for our site. All parent groups meet monthly. For those parents unable to attend any of our functions, we do an annual survey to remain informed about their requests and needs. Finally our Parent Action Team focuses on fundraising events. For more information about becoming involved in our school, please contact Principal Jackie Medina at (831) 728-6979.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.17	3.68	2.45
Expulsions	0.00	0.02	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The Starlight campus is clean and safe. Most recently we developed a safety plan in concert with school district and local police and safety personnel. Staff members provide supervision before and after school, and we conduct monthly safety drills. Our Safe School Plan comprises two components: people and programs, and the physical environment. We conduct regular safety drills, including fire, lockdown, and earthquake. We are proud to say that our staff and students are safe, effective, and efficient with such drills. In addition, our parents notify the office if they see unusual activity in the neighborhood in order to ensure safety for our young students during the day. We review and update our safety plan annually and solicit input from parents and staff as well. One recent addition to our safety plan is to have all staff members access to a safety vest in case of emergency. During drills we practice procedures which now include putting on a safety vests so we can identify ourselves to first responders and other emergency personnel.

Our school safety plan was shared with the community on November 10, 2022.

We schedule regular assemblies and recognition programs as part of our PBIS implementation plan. This year our parents identified a goal of enclosing the playground to ensure student safety, which was completed by the district. We continually work together to provide a safe environment for learning!

2021-22 Types of Services Funded

Starlight receives specialized federal funding to support programs and students. These funds are set aside for programs designated to serve a particular need or population. All funding parameters are defined and then delivered to parent advisory groups and key site planners for agreeable programming and fund application.

Federal Title I monies and other funds support our student and parent programs, teacher release time for grade level planning and assessments, and our Data Team process for improving instruction and enhancing student achievement.

Our Parent Fundraising Committee initiates fundraisers to support field trips and school-wide activities. The main funding need is to support sending students to fifth-grade science school. Funds from prior years are carried over to support a base amount of monies each year. All students benefit from these fund-raising efforts since the committee works to maintain a positive budget for future classes via the carry-over.

Professional Development

The focus for the 2022-2023 school year is on best practices for teaching in a distance learning environment.

Starlight school and district are focused on learning to improve our instruction in the Common Core. We attended a variety of training last year in preparation for implementation this year.. Currently, we are training in ELA units of study and further developing with Bridges into Math. Units of study that are standards based and incorporate elements of Visible Learning are a critical to our instruction. Writing, in all content areas is essential for success in the Common Core classroom and on Summative (SBAC) exams.

Data Teams or Impact Team meetings are at the center of our collaborative work. Each grade level team is quite skilled at the process of analyzing students work (data), implementing instruction, and re-assessing progress so students can achieve proficiency on a given standard.
