**7.0 POSITIVE PROGRAM REPORT ON GIFTED AND TALENTED EDUCATION (GATE)**

***7.1 Report by Lyn Olson, GATE Coordinator***

Lyn Olson started her presentation by stating that gifted students are very creative, observant and express intense interest. She spoke of characteristics that may affect the social emotional wellbeing of students, including idealism, perfectionism and depression. She spoke about the needs of GATE as well as all that is done in the program to support staff and parents. Differentiation is optional for teachers and there is limited professional development. Teaching to the common core standards means designing meaningful real world relevant learning skills for student; standards still call for differentiation. Ms. Olson commented on CST score trends in mathematics and English Language Arts for GATE students grades K – 12. The trend shows that students are not doing as well in the upper grades and there are many factors. She commented on the Student to Student conference, a place where gifted students can shine. It's open to all students and the district has great participation. The next conference is scheduled for May 17, 2014, from 1 to 5 pm at UCSC, Cowell College.

**8.0 PUBLIC HEARING: RESOLUTION #13-14-07, REGARDING SOLAR PROJECTS BID RESULTS, EVALUATION AND RECOMMENDATION FOR AWARD – MEASURE L BOND PROGRAM.**

**8.1 Report by Rick Mullikin, Director of Maintenance, Operations and Facilities**

Rick Mullikin, Director, reported that this is the criteria needed to move forward with the approved solar projects. Two companies submitted a request for proposal. The district will apply for an exempt status for the CEQUA as we are not affecting a protected environmental area. The cost is expected to be about \$7.2 million for the entire five projects during the next for 25 years.

Brett McFadden, CBO, explained that the project for Pajaro Valley High is on hold temporarily due to the need to go through the Coastal Commission; this would have been the 6<sup>th</sup> project. The district is committed with a solar project at the site but it is critical to consult with the Coastal Commission to ensure it is all done within legal parameters.

**8.2 Public comment**

None.

**8.3 Board questions and comments**

Board participated with questions and comments.

**Board President closed the public hearing and resumed the Board meeting.**

**9.0 VISITOR NON-AGENDA ITEMS**

Bill Beecher, community member, noted that a Sentinel article has California in 47<sup>th</sup> place in mathematics and reading; the gap between Hispanics and white is widening. He stated that State and our district have not been able to solve the inequity. Early and intense interventions are key factors in student success. LCFF provides financial support for students in more need. Smaller classrooms did not improve student performance. Funding should be used to get intervention teachers into the system.

Rhea DeHart and Heloise Schaser, members of the California Retired Teacher Association, noted that the association had given ten \$100 grants in County; about 305 teachers and administrators are part of this association. Seven of the 10 grants were given to PVUSD teachers.

Marilyn Garret, retired teacher, asked the board to place public comment at the beginning of the agenda. Spoke of the dangers of wireless radiation, noting that the World Health Organization listed wireless radiation as a

possible carcinogen. Students need to be in a safe and healthy learning environment; wired technology should be used.

**10.0 EMPLOYEE ORGANIZATIONS COMMENTS – PVFT, CSEA, PVAM, CWA 5 Min. Each**  
Sarah Henne, PVFT, was glad to see the LCAP item on the agenda and added that PVFT would like to be included as much as possible. Of the 7 dates currently to work on the plan, PVFT is only on one of the section.

Olga de Santa Anna, PVAM, spoke about how sites celebrate teachers; she mentioned that the California League of Middle Schools (CLMS) has received 9 state-wide nominations for teacher of the year; PVUSD has 3 of those 9 nominations. She added that on December 12, Margie Jennings of Pajaro Middle, Jen Bruno of Cesar Chavez Middle and Susan Chavez of EA Hall will be honored by the CLMS.

### **11.0 CONSENT AGENDA**

Public comment:

Rocco Cappalla, community member, asked to remove item 11.5 from consent for further discussion, noting he has been a supporter of the bond for a long time. Measure L is a long term project and the bylaws should show a balance between the team at the district and the oversight part. Mr. Cappalla does not feel that the balance exists yet, in particular with the selection of an auditing firm.

Trustee DeRose moved to approve the consent agenda with item 11.5 deferred. Trustee Ursino seconded the motion. Trustee Orozco requested to also defer item 11.13. Trustees DeRose and Ursino amended their motion to include the two items. The motion passed 6/0/1 (Yahiro absent).

**12.0 DEFERRED CONSENT ITEMS**

**11.5 Approve Operating Bylaws for Measure L Citizens' Oversight Committee.**

Brett McFadden explained the makeup of the committee, which has 19 members. Bond counsel and general counsel gave their input and language is common with other COC. He stated that the committee is charged with ensuring that bond expenditures are done according to the law. The committee expressed interest in being able to select the auditing firm; however, the board has the authority to select vendors and such. The COC will participate in review of proposals by auditing firm and will provide input but ultimately the final selection is up to the board's approval. Mr. McFadden introduced David Bautista, bond manager, for further clarification.

David Bautista explained that every bond program is clear that the selection of the auditing firm is up to the board. He expressed his hope that the committee is vibrant participant in determining the scope and direction of the program.

Board participated with comments and questions.

Trustee DeRose moved to approve this item, requesting a 3 month report that would include members of the COC to express their opinion if the bylaws are working or if they need to be amended. Trustee Rivas seconded the motion.

Board continued with questions and comments:

The motion passed 4/2/1 (Ursino, Orozco dissented; Yahiro absent).

**11.13 Approve Extension of District Office Lease at the Towers Building Complex.**

Brett McFadden noted that this item is to extend lease for the district office complex for either 5 or 10 years. PVUSD occupies 95% of space. We are one of the top 100 largest districts in the state. Housed in this location are: warehouse, kitchen, two schools, migrant education, child development and migrant and seasonal head start. It is a unique facility. The district enjoys a productive relationship with the landlord and is able to modify to fit its needs and the rate is extremely reasonable. The district conducted an analysis for possible alternatives and no other possible locations were identified. The lease includes a minimum rate increase per year and has an out clause for both parties.

Trustee DeRose moved to approve this item for the 10 year lease. Trustee Osmundson seconded the motion. The motion passed 6/0/1 (Yahiro absent).

**13.0 REPORT, DISCUSSION AND POSSIBLE ACTION ITEMS (CONTINUED)**

**13.1 Report, discussion and possible action to approve Resolution #13-14-07, Regarding Solar Projects Bid Results, Evaluation and Recommendation For Award – Measure L Bond Program.**

*Report given under item 8.1.*

Trustee DeRose moved to approve this item. Trustee Orozco seconded the motion. The motion passed 6/0/1/ (Yahiro absent).

**14.0 REPORT AND DISCUSSION ITEMS**

**14.1 Report and discussion on Special Education Services.**

*Report by Ray Houser, SELPA Director.*

Mr. Houser reported that the district serves about 15% of students in the district, including services in speech and language as well as learning disabilities and other health impairments. The number of autistic students has increased but it is consistent with increase rates in California. The district transports about 563 students to schools and is able to file for reimbursements for specific

transportation services for special education. Mr. Houser commended his staff for their professionalism and effective; compliance complaints have been low.

At 10:30, trustee DeRose moved to extend the meeting to 11:30. Trustee Rivas seconded the motion. The motion passed 6/0/1 (Yahiro absent).

Continuation of presentation on Special Education:

Denise Banghart-Bragg, Assistant Director, commented on Duncan Holbert, a school that serves the youngest of our students; it is a diverse population served with programs for preschool and early start. Ms. Banghart-Bragg outlined the number of employees who serve special education students, including 25 instructional assistants and 4 preschool special day class teachers. She noted that 2 special day class teachers were added to Hyde Elementary school. The process of how students are assessed and served was also presented, including how children from birth to 2.11 are helped through the Early Start program, how special day classes work and how medical needs are met. Services are rendered in partnership with outside organizations, such as Easter Seals, Heat Start and the National Migrant and Seasonal Head Start Association.

Heather Gorman, program director, presented on special services at the elementary school level; there is at least one Resource Specialist Program (RSP) teacher at each school, speech and language pathologists, and teachers for mild/moderate special class as well as moderate/severe life skill classes. In addition, services are given to students who are deaf or hard of hearing, special therapeutic classrooms for students with emotional disturbances and classes for students with autism. Similar services are offered for middle school students.

Addressing services for high school students, Ms. Banghart-Bragg reported that there is a huge push at this level to get them into the general education classrooms. The program has 12 RSP teachers working and offers the same services as in middle school. A new autism class was added to Pajaro Valley High School. It was noted that there is an increase in need for special therapeutic classrooms for students with emotional disturbance.

Mr. Houser continued the presentation commenting on post-secondary services for students 18 – 22 years old; Watsonville and Aptos each offers 2 programs each. Some students attend classes at Cabrillo College and some enter the work field.

Board participated with comments and questions and thanked staff for their work.

Trustee Osmundson left the meeting at 10:45 pm.

**14.2 Report and discussion on Pajaro Valley Prevention and Student Assistance (PVPSA)  
Presentation of the 2012-13 California Healthy Kids Survey Results.  
Report by Jenny Sarmiento, PVPSA CEO.**

Jenny Sarmiento stated that this is a required biannual report; the survey is required to be administered every other year. This report is for 2012-13. The survey found that 70-72% of students of the district live with both parents. The survey is around use of alcohol, inhalants, and marijuana use as well as experiencing safety-related incidents or students who have mental health needs. Ms. Sarmiento noted that alcohol and marijuana are two substance abuse concerns. The survey and multi-year data shows a decrease in use through intervention and education. Grades 9<sup>th</sup> and 11<sup>th</sup> show some increases as students experiment. The safety related incidents, such as fights, being afraid of being beaten up, or carrying a gun show similar figures to state trends.

Ms. Sarmiento highlighted the need for mental health services. Students experience hopelessness and suicidal attempts or thoughts. In 3 months, the office received close to 70 calls for middle and high school students.

In reference to gang involvement, Ms. Sarmiento noted that most youth at PVUSD is not involved in gangs as perceived. The percentage of 7<sup>th</sup>, 9<sup>th</sup> and 11<sup>th</sup> is in the single digits in 2012-13.

Board participated with questions and comments.
